VOL. 45. VICTORIA, B. C., MONDAY, NOVEMBER 5, 1906. NO. 17.

AN ENTHUSIASTIC SUBURBAN MEETING

IN COLQUITZ HALL SATURDAY EVENING

Provincial Government Scored Severely For Its Uabusinesslike and Iniquitous Legislation.

In one of those delightful suburbs of Victoria, where the skill of the husbandman grows apace and fruit-raising and kindred industries approach to an exact science, the members of the Saanich Liberal Association met the representatives of the district in both Dominion and Provincial legislature on Saturday evening in Colquitz hall.

The meeting took the form of a smoker and entertainment, with President Moore in the chair. Mr. Secretary Jones and a goodly number of the younger workers were present. The musical programme of the evening was prepared by Percy Richardson, who, with the assistance of Messrs. A. J. Julier, J. R. Mountain and J. Petch, interspersed with the speeches a really delightful little entertainment.

Ralph Smith, M. P., H. E. Tanner, M. P. P., T. W. Paterson, M. P. P., and John Jardine were present by invitation.

After a smoke and a good song, Mr. Tanner, the representative of the district, addressed the meeting and gave a fair account of himself for the three sessions he had occupied a seat in the House. He had followed a straight course along the line of duty as he saw it. He had endeavored to assist the farmers with cheaper blasting powder to clear their lands; he had obtained better terms for their agricultural societies; also exemption of taxes on pre-emptors' land until two years after he had made his record of improvements; a bill to regulate the speed of motor vehicles and to require their registration; a bill to regulate the storage of powder at a factory in the district so as to insure public safety; amendments to the Game Act, providing more stringent measures against trespass and Sunday shooting. He had given strong opposition to the School Act because it was iniquitous and had called public meetings which brought about some modifications, although it was still bad. It was not, however, until after the act came fully into operation next spring that it's full iniquity would be felt. He touched on immigration, and showed that with the present composition of the legislature and the Socialists in control of the government, passing destructive legislation and totally opposed to the encouragement of all kinds of immigration, that the labor problem must remain unsolved until a new set came into power. One reason why he had not visited all parts of his district as often as he wished was because of the scarcity to help to assist him as a fruit grower. The people wanted more men and women from the country districts of the old land. Plenty would come if encouraged. He urged attention to the voters' lists, and concluded with a reference to the Ottawa fiasco of the premier, who should have put up a better fight and stayed with it, instead of quitting and then starting immediately to harp on a grievance. (Loud applause.)

After another song T. W. Paterson was called on. Mr. Paterson in his well known incisive way proceeded for forty minutes to take the "hide" off the government, and he certainly removed most of the epidermis in large strips, and did it with neatness and dispatch. Beginning where the last speaker left off, he expressed the opinion that the course of the premier at Ottawa had done more to damage British Columbia in her efforts for better terms than all the arguments of the opponents of special consideration for this province. He dealt with the school tax, and showed that it bears unevenly, and that it was unnecessary. The schools of the province should be supported from the revenues derived from the exploitation of the natural resources of the province; from the enormous receipts now being derived from timber as well as from coal and metalliferous mines. The municipality in which he was speaking was as much entitled to its share in these revenues as before it became a municipality, but did the government intend to expend it justly in that way? Not much. The famous Dewdney Disincorporation Act, applicable only to the premier's constituency, and having for its object the remission of taxes long overdue, but unpaid, was touched upon, and the outrageous injustice it was to other farmers with poorer land pointed out. It was in fact unfair and unjust to every farmer in the province outside the Dewdney municipality, and the moral lesson for Dewdney itself was bad. The speaker dealt at length with legislation in regard to timber, showing how the government had fixed it so that a farmer may not own the timber on his own land, and how he is liable to a heavy tax if he exports any of his logs. He thought an inferior grade of logs should be permitted to be exported free and thus realize on a large quantity of that which cannot be sold in the province. Some of the ridiculous laws to hamper hand loggers was referred to, also the Columbia & Western land grant, and last, but not least, the Kaien Island deal, which had been fully inquired into by a committee of the legislature. As a member of that committee he had been deeply impressed by the phenomena of the several principals in the transaction, being all afflicted with a loss of memory at the time on this one subject. Mr. Paterson closed an interesting address amid applause.

Ralph Smith, after a number in the lighter vein had been scored off the programme, deliverd a short but telling speech. He found himself in the happy position of supporting the best government Canada ever had. Not but what there were some things done that were better had they been left undone, but such things were apparently inseperable from the carrying out of great works, and the effort must be always to reduce them to a minimum. In regard to the effort to establish an independent labor party, he contended that in so far as Dominion legislation was concerned there was no necessity for such an organization. It was moreover impracticable. Looking over the great district he represented, having within its boundaries every kind of industrial entreprise, it was impossible for him or anyone else to go to Ottawa as the representative of one class.

Our abounding prosperity he traced to the wise and aggressive policy of the Dominion government in regard to immigration, and particularly in placing the right kind of people on the vacant lands. Following upon that came the national transcontinental railway, over which the government would have absolute control.

The government control of railways by an independent commission was the nearest and best thing to government ownership. The Laurier government deserved well of the people of Canada for creating the railway commission.

The difference between the present Dominion and Provincial governments in conserving the public was illustrated by what took place when the Crow's Nest railway was built. The government, it is true, paid the railway company a subsidy of $3,000,000, but they took care to limit the price of coal to $2 per ton on car, and took over, and still hold, a large area of coal lands which will be opened up by the government if the agreement in regard to the price and supply of coal is not lived up to. He estimated, taking the Nanaimo price of coal as a basis, that the government had saved the fuel bill of the country to the amount of the $3,000,000 subsidy in four years.

After touching on the settlement of the school question in the former Northwest Territories, a settlement accepted by the territories themselves, he passed on to immigration. This work was confined to bringing in a healthy agricultural class of people to settle on the vacant lands, and every industrious man who came was an asset of the country. In this great Dominion, with only six millions of people, not only the proterity but the very existence of the country depended on the settlement of the vacant places by a good class of people. We have barred the Chinese, and every industry in the district feels the pinch of the scarcity of labor, but the future depended on the moral and physical quality of its people. Better terms was not a live question in Nanaimo, and he could only recall one man interested enough to say "What do you think of it." Here were, however, enormous sums being spent on public works in Eastern Canada, some of which should be spent here, but before we could ask the Dominion government to spend more here or to grant better terms, there was to be something like honesty and decency in dealing with public funds by the provincial government. He then instanced the wharf scandal at Ladysmith, where, after long agitation and numerous petitions, the Dominion government agreed to build a wharf. When the wharf was finished the provincial government was asked to make a road from it. Mr. Green, minister of public works, went up there, and what did he do? Refused to build a road from the Dominion wharf, but built a provincial wharf, half a mile away, and made a road from it at three times the cost of the proposed road from the Dominion wharf. In view of such barefaced and unscrupulous waste of public money, how could the McBride government go with any semblance of decency to treat with the Dominion for more money? The Dominion government would not be justified in playing into the hands of unscrupulous men like these.

The great concern of the province should be to see that the money we have is wisely spent. The people should ask why do you cut down expenditure to the last cent? Why have you never a dollar to spend on public improvements, and yet you can give away vast assets of great possibilities like Kaien Island? Let us demonstrate that we have the brains and ability to administer what we have properly and then we may with good grace ask for better terms and our own good conduct of affairs will ensure for us a sympathetic ear.

Mr. Smith's vigorous address was warmly applauded.

John Jardine having been called upon, in a short address exhorted the Liberals to be true to their traditions and strive for the good of the common people. The growth of Socialism and kindred societies were but an evidence of unrest and discontent among those who believed that governments were not administered in the interests and for the good of all the people. As the hour was growing late he felt that he must not proceed further. His remarks met with liberal applause.

After votes of thanks to the speakers, the entertainers and to the chairman, the proceedings were brought to a close.

GOVERNMENT RAILWAYS.

S. L. Shannon Has Been Appointed Comptroller and Treasurer.

(Special to the Times.)

Ottawa, Nov. 5.—S. Leonard Shannon, accountant in the department of railways, has been appointed comptroller and treasurer of government railways, with headquarters at Moncton. The present position of treasurer and accountant of the Intercolonial will be abolished. The idea of the minister of railways is to make a wider and broader position to meet the views of the experts who have been examining the affairs of the road and to carry out the new system of keeping accounts which is to be inaugurated.

THE ELECTIONS ACROSS THE BORDER

POLLING WILL TAKE PLACE ON TUESDAY

Managers of Campaign in Various States Are Now Making Final Preparations.

(Associated Press.)

New York, Nov. 5.—To-day will witness the closing scenes in one of the most remarkable political campaigns in the history of New York state. By midnight the last public word will have been spoken, and nothing will remain but the story to be told by the ballots themselves. Who the hero of the tale will be cannot be forecasted with any certainty. Old-time methods of anticipating the results of an election have been rendered almost useless. Party lines in most sections of the state have been almost, if not quite, obliterated. Politicians of a life-time have been thrown aside, and thousands of voters to-morrow will follow their chosen leader rather than any party.

The respective leaders of the great parties, basing their estimates upon what they claim to have been carefully painstaking canvases, have reached widely different conclusions as to what the result will be. The managers of the Republican Independence League campaign each announced himself as convinced that his candidate will have a plurality of at least 200,000 votes.

In some other years the Monday immediately preceding election has been largely a day of rest or has been devoted to the quiet work of arranging the last details in preparation for the real struggle which is to come. Not so to-day, however, as from the very first the two leading candidates have a strenuous schedule before them. Charles E. Hughes, the Republican candidate for governor, will address seven meetings this afternoon and evening in various sections of New York. W. R. Hearst, the Democratic and independent league candidate, will address three and possibly four meetings to-night.

Fears that the ballots for use in the Greater New York in to-morrow's election might not be printed in time for distribution as a result of the delay arising from the nomination contests in New York county were ended to-day. Early to-day the last of the two million, four hundred thousand ballots came from the press, and the work of disturbing them to the polling places was begun. A little over 72 hours was consumed in printing the ballots.

Interest In Washington.

Washington, D. C., Nov. 5.—To-day Washington is looking forward to the results of the election in 42 states with many evidences of anxious interest. The president is particularly anxious, too. Republicans are willing to admit the Democrats are to make gains over their present representation in congress, but do not concede the former all they are claiming. Although denied the right of suffrage local, Washington because of the presence of the national government takes the greatest interest in the outcome. Many of the clerks, both Democratic and Republican, in the various departments, who still hold their legal residences in the states, from which they were appointed have gone home to vote.

In Massachussets.

Boston, Mass., Nov. 5.—The state campaign in Massachussets reached its eleventh hour to-day. The heaviest part of the work of arousing interest among the half million voters in the different boroughs has been performed and all that remained to-day was to close up whatever gaps might have been left in order that each side might present a solid front for to-morrow's contest. It was arranged that both candidates for governor should remain on the stump until a few hours before the opening of the polls. A market men's meeting was scheduled at noon for Governor Guildin in Fanteul hall, while John B. Moran, the Democratic prohibition and independent league candidate, planned to make a whirl through the 25 Boston wards this evening with brief speeches at each ward room.

Interesting contests are looked for in the fifth, sixth, tenth and eleventh congressional districts, and in a large number of the senatorial and representative districts. It is not expected, however, that the complexion of the legislature will be materially changed by to-morrow's election, and that it will be strongly Republican and will choose United States Senator W. Murray Crane for another term.

Rhode Island.

Providence, R. I., Nov. 5.—With all the political leaders actively working to-day in preparation for the closing rallies of the fight in the interest of the Republican and Democratic parties, one of the liveliest campaigns in the history of this little state drew to a close. Both parties cited statistics to support their claims for victory at the polls to-morrow, but the outcome to-day appeared to be uncertain. Mayor James H. Higgins, of Pawtucket, the Democratic nominee for governor, is seeking to defeat the present incumbent, George Hutter, Republican. The fight for general assembly has been particularly keen this year, and the outcome is much in doubt.

Estimates Vary.

Chicago, Ill., Nov. 5.—Since the closing of the campaign on Saturday, Chairman Boeschenstein, of the Democratic state central committee, and Chairman West, of the Republican committee, have busied themselves in obtaining what they term an accurate forecast of the result of Tuesday's election. Their estimates of the result vary widely. Chairman Boeschenstein claims that the Democrats will carry Cook county by 10,000 votes, and that the Democrats will certainly gain sixty-eight congressmen. Chairman West estimates that the Republicans will have a plurality of at least 35,000 in Cook county and allows the Democrats one congressman in addition to the one they already have in the 20th district. It is admitted generally that the legislature will elect a Republican successor to Senator Colium.

In Pennsylvania.

Philadelphia, Pa., Nov. 5.—The campaign in this state and city closed practically on Saturday night, and the party managers devoted to final preparations for to-morrow's battle, when a governor and other state officers and congressmen are to be chosen. Edward Stuart, the Republican nominee for governor, is opposed by Lewis Emery, jr., the candidate of the Lincoln party and Democrats. Last year the Lincoln Democratic fusionists elected Wm. H. Berry, state treasurer, by a large majority. The fact, however, that Philadelphia is the home of Mr. Stuart makes a prediction as to the outcome of the election difficulty. He is personally very popular, and it is thought by many that he will carry the city, and thereby overcome whatever majority the state outside of Philadelphia might give Mr. Emery. The Republican and Fusion leaders both claim the state and city.

TEN MILLIONS FACE STARVATION

ACCORDING TO REPORTS FROM CENTRAL CHINA

People Prevented From Leaving Regions but No Efforts Are Made to Supply Food.

(Associated Press.)

Shanghai, Nov. 5.—Missionaries report a most severe famine in the northern part of Kiangsu province, Central China.

It is estimated that ten million people face starvation.

Local magistrates are preventing people from leaving the region, but are taking no steps to provide them with food supplies.

MATTERS TO COME BEFORE COUNCIL

SONGHEES QUESTION TO BE CONSIDERED

Committee Report Will Recommend Petition to Government to Establish Life-saving Stations.

At to-night's meeting of the city council the Mayor will bring up the Songhees reserve matter, and will make a suggestion that the council and the board of trade memorialize the government, asking it, at an early date, to pass the necessary legislation which will allow of the completion of the work which has already been done toward removing the Indians to a new reserve. The Mayor believes that the government will, in consideration of the negotiations having been mutually satisfactory on all points except the location of the new reserve, be justified in setting a time limit for the Indians' removal, the limit to be not later than next spring, after which steps can be taken to have the work of rehabilitation carried out. His Worship stated this morning that he considered that such an action on the part of the government would be to the interests of all parties concerned in the face of the fact that the Indians had not found fault with the generous terms offered to them, except in the matter of choosing the impossible site of Cadboro Bay for their new reserve.

Among the other matters to be dealt with at the meeting will be the report of the special committee appointed at the last meeting of the council to draft a memorial to the government urging that the proper authorities lose no further time in providing such safeguards to life and shipping as were expected as a consequence to the great loss of life entailed by the wrecks of the steamer Clallam, and, more recently, the Valencia.

The motor vehicle by-law, which has already been read a first time, will be up for its second reading, and, in dealing with this matter, the council will consider a number of recommendations and suggestions submitted by the Victoria automobile club, with the idea of either amending or redrafing the by-law so as to render it a fair and impartial measure. In the regular routine business the tenders for the purchase of the strip of land owned by the city and commonly known as the Cameron property will be opened, and the matter is likely to be finally settled.

LOGGER KILLED WOMAN HE LOVED

AND ATTEMPTED TO END HIS OWN LIFE

Tragedy in Seattle Was Result of Jealousy—The Murderer Will Recover.

Seattle, Nov. 4.—Death was the reward that came to Mrs. Flora M. Shannon for her kindness to one in affliction. Sympathy for him as he lay injured in her home, mistaken for a feeling of deeper affection, led James Brady to commit an act that robbed the woman of her life and brands him a murderer. To Brady, during his sickness, Mrs. Shannon ministered to his every want, but in health she spurned his love and declared that she was to marry another, and this admission fired the spark of mad jealousy in the bosom of the man that took her life.

The killing of Mrs. Shannon occurred in Flat D, 1310 Denny way, some time yesterday afternoon. Her dead body and the unconscious form of Brady, who attempted to end his own life, were discovered in the house shortly after 2 o'clock by A. B. Currie, affianced husband of the woman. Mrs. Shannon had evidently been dead only a short time for her

Clothing Had Been Set on Fire

by the powder from the weapon of her slayer, and it was blazing when Currie entered.

Currie extinguished the fire and telephoned at once to the police.

When Corner Carroll and Sergeant of Detectives Tennant arrived it was found that Mrs. Shannon had met her death as the result of two gunshot wounds inflicted with a .38 caliber revolver. One bullet entered her throat and lodged in the right shoulder. The second bullet struck her just above and in front of the left ear, penetrated the brain and came out behind the right ear. In the opinion of Dr. Carroll and Dr. Buckley, assistant city health officer, who made examination, death

Almost Instantly

followed the firing of the second shot.

After shooting Mrs. Shannon Brady turned the weapon on himself, inflicting a serious, though not necessarily a fatal, wound in the head. One bullet entered on the right side of the head, followed the curvature of the skull and emerged at the top. Shortly after the coroner and the police arrived Brady recovered consciousness sufficient to make a brief statement, in which he admitted he committed the deed. "She threw me down," he said, "and I wanted to end it all."

The murderer walked to the ambulance unassisted and after entering the Wayside Emergency hospital was able to sit up in bed. In reply to a question as to his condition, Matron Major said: "The man is not going to die."

According to report James Brady, who is a logger, sustained a broken leg while working at Keriston about two months ago. During the time he was ill he roomed at the home of Mrs. Shannon at 1310 Denny way, and she nursed him and took unusual care in ministering to his wants. The injured man became

Greatly Attached to His Nurse

and by the time he was able to leave her home, which was about eight days ago, he was madly in love with her. From his own lips Brady stated that he feared Mrs. Shannon loved A. B. Currie, an employee of the J. B. Powles commission Company, and in his madness he determined to learn the truth and end her life and his own.

He met the woman down town about noon yesterday and went out home with her. Once inside the house Brady asked Mrs. Shannon if she loved him and she replied that she did not, but was the promised wife of Currie. Without a moment's warning Brady drew his pistol and fired at her. At the time Mrs. Shannon was standing near a bed in a room back of the parlor, which is in the front of the house. She staggered past the man and crossed a hallway into a small clothes' closet at the rear of a stairway. As she entered this closet Brady sprang to her side, and almost placing the weapon against her head sent a bullet

Crashing Into Her Brain.

She fell forward into an open trunk and it was in this position that her dead body was found. Then Brady turned and fired a third shot, which penetrated his own head, and fell face downward.

Although several persons were occupying rooms in the same building none of the shots were heard, and it remained for Currie to discover the tragedy. Currie was taken to the police station, and after relating his story was allowed his liberty pending further hearing. He stated that he had known Mrs. Shannon for several months, and had been rooming at her house for some time.

Brady first became acquainted with Mrs. Shannon when she and her husband, who is now divorced from her, were living at Burlington. In his action for divorce Shannon named Brady as a co-respondent, but the latter declares that his acquaintance with the woman at the time was slight.

The dead woman was 45 years of age. She is survived by a daughter of 17, who resided with her. Brady is 35 years of age.

Brady is booked at the police station on a charge of murder. As soon as his condition warrants he will be removed to the county jail. At present he is being guarded by Special Officer Clark.

FIRST MEDAL COMPETITION.

Followers of the Royal and Ancient Game of Golf Play at Oak Bay.

On Saturday the first medal competition for the present season of the Victoria Golf Club took place at the Oak Bay links. The results were as follows:

A Class.

	Score.	Hcp.	Net.
H. G. Goward	97	14	83
A. T. Goward	99	13	86
Le R. Irvine	98	10	88
C. W. Rhodes	102	14	88
J. A. Rithet	99	10	89
A. L. Crease	103	9	94

B Class.

	Score.	Hcp.	Net.
A. S. Robertson	107	17	90
R. H. Swinerton	109	17	92
J. C. Barnacle	117	24	93
H. H. Mackenzie	117	22	95
G. C. Johnston	125	24	101
J. W. Ambery	118	16	102

Several other players took part but returned no scores.

HAMILTONIANS FORCED TO WALK

STREET RAILWAY EMPLOYEES GO OUT ON STRIKE

Betting on Woodbine Race Track Declared to Be Illegal—Kleingbell Gets Four Years.

(Associated Press.)

Hamilton, Ont., Nov. 4.—There was no street car service in Hamilton today, the men going out on strike. Dissatisfaction with the award of an arbitration committee is at the bottom of the trouble.

Sentenced to Death.

Brandon, Man., Nov. 4.—The sentence of death has been pronounced against Wooly Bear for murdering a fellow tribesman. He will be hanged on December 21st.

For Manslaughter.

Belleville, Nov. 4.—Judge Brittain has sentenced Kleingbell, found guilty of manslaughter in having caused the death of his wife, to four years in the penitentiary. The sentence is thought to be too light. It is stated that only the age of the prisoner kept the jury from bringing in a verdict of murder against him.

Will Be Appealed.

Toronto, Ont., Nov. 5.—The Court of Appeals has handed down judgment, holding that betting as carried on on the Woodbine race track was illegal. Chief Justice Moss and Justices McLaren and Osler were the majority of the court, and dissenting from the judgment were Chief Justice Meredith and Justice Garrow. The case will be carried to the Supreme court.

Rugby in East.

Montreal, Nov. 5.—Football games on Saturday resulted as follows: At Montreal, Inter-Collegiate Union, McGill, 21; Queen's 12. At Ottawa, Inter-Collegiate Association, Ottawa College, 5; Toronto Varsity, 4. At Toronto, O. R. F. U., Hamilton Tigers, 9; Toronto Argonauts, 8. At Montreal, Q. R. F. U., Montreal, 72; St. Patricks, Ottawa, 3. At Ottawa, Q. R. F. U., Ottawa Roughriders, 69; Westmount, 7.

Without Coke.

Sydney, C. B., Nov. 5.—The blast furnaces of the Dominion Iron & Steel Co. were banked on Saturday because of the failure of the company to obtain proper coal for making coke. Unless the furnaces are started up in a few days the entire plant will have to close down and throw 1,700 men out of employment.

The Ontario Bank.

Toronto, Ont., Nov. 5.—According to ex-Manager McGill's statements on record at the Ontario Bank, it is said that big New York brokers are shown to owe the bank about $2,000,000. The accuracy of these statements, however, is not believed in, although the prosecution may send a commission to New York to look into the facts thoroughly. The court of inquiry, beginning on Tuesday, will include in its scope the probing of all the ex-manager's speculations.

Threaten to Strike.

Winnipeg, Nov. 5.—The faculties of Wesley and Manitoba colleges last week posted notice to the effect that in future all students must attend ninety per cent. of the lectures. This is regarded by the students as unreasonable, and they will refuse to abide by it and have sent an ultimatum to the faculties to the effect that they will strike to-morrow if an attempt is made to enforce the decree.

MINER KILLED.

An unfortunate accident occurred on Monday night at the Granby mines, Phoenix, which resulted in the death of a miner, John Holmes, at the hospital shortly after he was removed there. Holmes was working in the No. 3 tunnel level, and was letting a heavily-loaded mine ore car down the grade in one of the stopes, to a point where the train is made up for hauling by the electric locomotive. Unfortunately he placed himself in front of the car, and it is thought he stumbled or fell, the car passing over and crushing him so badly that he expired a few minutes after being hurried to the hospital. Holmes was a native of Finland, where he is said to leave a widow and several children. It is understood that no inquest will be held, it not being necessary under the circumstances.

IMPORTANT RULES OF LABOR PARTY

UNPUBLISHED EXTRACTS FROM THE CONSTITUTION

Meeting of Trades and Labor Council on Wednesday Promises to Be Lively.

The meeting on Wednesday next in Labor hall of the local trades and labor council will be of more than ordinary interest. President Gray will deliver his report on the recent convention in Vancouver and present the full scheme adopted by the working of the Canadian Labor Party. The constitution and rules governing branches are in the hands of the printer, but the Times is enabled to publish the most important of them, so as to permit of members of the council considering them before the meeting.

The duties of subordinate branches are as follows:

1. To extend the operation of the C. L. P. of B. C. throughout the electorate.

2. To enrol as many desirable members as possible.

3. To see that every friend of labor is on the electoral rolls.

4. To keep a voters' roll for the electorate of district, and to maintain a close scrutiny of the methods of the public authorities in preparing rolls and conducting elections.

5. To select and secure the return of pledged labor candidates.

6. To promote social intercourse between members and their political friends by means of entertainments, literary evenings, etc.

One rule, of particular importance, not mentioned at Thuraday night's meeting reading:

Any motion to work, fuse, ally or cooperate in any way with any political party other than a bona fide Labor party shall not be entertained.

shows the determination of the party not to form outside alliance. Considered in reference to Mr. Gray's personal opinion, as expressed at the meeting mentioned, there appears to be some danger of a conflict of opinion in the Victoria branch.

The method of selecting candidates is similar to that employed by the International Union of Cigar Markers, and has worked very satisfactorily in that body. The rules are as follows:

Labor Candidates.—No person shall be eligible for selection as a candidate of the Canadian Labor Party for parliamentary, municipal or other positions who has not been a member of the party for at least three months. Candidates must be nominated by four financial members in the manner prescribed by the rules, and no nomination shall be accepted unless the candidate has unreservedly given his adherence in writing to the candidate's pledge of the Canadian Labor Party of British Columbia, witnessed by the members who have signed his nomination paper.

Selection of Candidates.—The method of selection of candidates shall be by a general ballot, and every member of the branches within the electorate shall be entitled to a vote. Members who are residing out of their electorates when the ballot is taken shall be permitted to vote by post. The senior branch in the electorate shall arrange for the ballot for the selection of a candidate, and the president of the branch shall act as returning officer. In view of an election the returning officer shall advertise in at least two newspapers and shall also notify all the branches that a selection for a labor candidate is about to take place, and that nominations will be received from properly qualified candidates; the notification shall also state the dates for the closing of nominations and for the selection of the candidate.

NOME'S GOLD FIELDS.

Old Beach Back of City is Giving Good Results at Bed Rock.

W. J. Milroy, of Nome, is a guest at the Driard. Mr. Milroy left the northern mining country about the beginning of last month, and will remain on the coast during the winter, returning to Nome next spring. He says that the past year has been a good one, and there is excellent promise for the coming season.

During the summer just closed the new gold fields back of the city of Nome have been quite fully exploited, and there will be a lot of work done on them during the present winter. It was only last year that the old beach line back of the city was located. It lies a few miles from the present coast line and bed rock is reached at a depth of about 80 or 100 feet. This former short line is proving very rich, and during the past summer there has been a lot of prospecting done to acertain the exact location of it.

There will be considerable drifting done during the winter which will largely increase the gold output from the camp. The year has seen a production of about $5,000,000 or $6,000,000. There has been a trade at Nome which has employed about fifteen vessels during the summer running from Seattle. With this number there were not sufficient to handle the business, and new ones will be added next year.

Mr. Milroy himself was engaged during the summer in the Kotzebue district, which is tributary to Nome. That country, which is a comparatively new one, has had a good season. There has been, he says, about half a million produced there this season on the different creeks.

Up to the present the quartz properties in the Nome district have not been very fully developed, although there are splendid showings and promise of rich returns from them. In addition to the gold bearing quartz there are tin deposits within a short distance of the city.

MUTINOUS SAILORS PLACED UNDER ARREST

(Associated Press.)

Portsmouth, Eng., Nov. 5.—A mutinous outbreak on the part of five or six hundred sailors last night necessitated the immediate mobilization of the entire force in the naval barracks here in order to prevent the affair developing into a serious mutiny.

The men had assembled in the gymnasium when the senior officer, a man of short stature, wishing to administer a reprimand for breach of discipline, ordered the front ranks to kneel so that he could see the men in the rear. The order was resented and some of the sailors who refused to obey were arrested. The comrades aggrieved, ran amuck, wrecked the canteen and other premises, started to break out of barracks, with the intention of wrecking the quarters of the obnoxious officer, and were only prevented from so doing by the fixed bayonets of an overwhelming force.

A number of the men who attempted to break out of barracks were also arrested.

TRAGEDY IN ALASKA.

Norman Smith, a Tenakee Hotelkeeper, Killed by Robert Reid.

(Associated Press.)

Seattle, Wash., Nov. 5.—A dispatch to the Post-Intelligencer from Juneau, Alaska, says:

"Norman E. Smith, a Tenakee hotel man and formerly a famous bicycle racer, has been killed at Tenakee Hot Springs by Robert Reid. Smith is said to have had a bad reputation among the miners and Reid claims to have been threatened by the hotel-keeper."

ACCIDENTALLY SHOT.

Russian Colonel Wounded by Member of Regiment While Men Were Practising Firing.

(Associated Press.)

Nizini Novgorod, Russia, Nov. 5.—Colonel Bazehoranoff, of the Viborg regiment, of which the German Emperor is honorary commander, was seriously wounded to-day by a bullet fired by a member of his own command while the soldiers were practising firing with blank cartridges. It is stated that the shot was fired accidentally.

During the Russo-Japaneses war the Viborg regiment distinguished itself at the battle of the Sha river, and was almost decimated at the battle of Purloff hill for gallantry, on which occasion Colonel Bozehoranoff was decorated by Emperor William.

THE BABINE TROUBLE.

(Associated Press.)

Ottawa, Nov. 5.—Fishery Overseer Williams has arrived from the Pacific Coast and is discussing with the department the Babine Indian troubles. Mr. Loring has not yet arrived.

HEAVY PURCHASE OF CITY REAL ESTATE

Another important sale of real estate was consummated a few days ago, that of eighty acres of the Finlayson estate, which changed hands at about $40,000. The property is situated both north and south of the Jewish cemetery on both sides of Cedar Hill road, and reaches the vicinity of Hillside avenue. It was purchased by people from the Northwest. Although nothing definite is known as to the use to which the new owners will put the land, the fact that it is broken up into seven parcels seems to indicate that it will be subdivided into residential lots.

W. J. Hanna has been purchasing a number of blocks of fruit land for friends and acquaintances on the prairies. Among them are 50 acres in Saanichton, 13 acres on the Gordon Head road, 7 acres near Mount Tolmie and three blocks of the Scott farm, which was subdivided recently.

UTES DISARMED.

Indians Will Return to Fort Meade While One of Chiefs Goes to Washington.

(Associated Press.)

Sheridan, Wyo., Nov. 4.—The Utes, who have been on a rampage, have consented to return to Fort Meade, while one of their chiefs goes to Washington to talk over their grievances with President Roosevelt. The Indians have been disarmed.

THE GRIFFIN CASE.

(Special to the Times.)

Vancouver, Nov. 5.—Captain Griffin's case opened this morning before Judge Henderson. The court admitted the deposition of Capt. Griffin in the government inquiry, and this is now being read.

VANCOUVER MERCANT DEAD.

(Special to the Times.)

Vancouver, Nov. 5.—C. W. Robson, a pioneer merchant, died to-day.

THE DESIGNS—"STYLE."

The president of the Semi-ready Co. attained to that position chiefly because he is a master of designing, and the ablest exponent of correct style and cultural taste in the making and designing of modes for gentlemen. One can always rely upon the absence of swagger in the Semi-ready garment. To his skill, and his expression of that distinctive style, which marks the gentleman, coupled with an ability to forecast the popular choice, is attributed much of the success achieved by "Semi-ready."

CIVIC CORRUPTION IN SAN FRANCISCO

LIVELY CAMPAIGN AGAINST GRAFTERS

Rudolph Spreckels Is Backing the Reformers—Some Interesting Sidelights on Situation.

A San Francisco dispatch says: A few years ago the country was startled by a young lawyer in St. Louis, who busied himself sending to the penitentiary various officials, a big state boss and some prominent citizens. It looks now very much as though San Francisco was to have an experience similar to St. Louis. All the necessary elements are here to complete the drama. We have crime, corrupt government, a defiant boss, a relentless, successful prosecutor and some leading citizens who surely will grace the criminals' dock. Back of this is a young, fearless millionaire, with absolutely no political affiliations, who is going to see the thing through to the bitter end.

Rudolph Spreckels, a fighter from fighting stock, is behind the

Movement for Civic Purity

in this city, with no political affiliations of any kind, wealthy and with the ability to make millions legitimately, and he is eager to furnish the sinews of war to Frank Heney, who has the scent of a bloodhound for corrupt officials, and the grit of a bulldog when the fight is on. A combination of Heney and Spreckels has thrown our grafters into a cold sweat, and from the big man, who is away, to the little man, who is here, there is a hurrying to cover all along the line. In anticipation of the result, Kuhne Beveridge, who immortalized this city in her statue of Grief, may mould a figure of Graft, with stripes and an Oregon boot.

The careless effrontery of officials and the overconfidence of leading citizens who benefited by

Special and Illegal Privileges,

will lighten Heney's work before the grand jury, and the mere scratching of the surface will expose a rottenness that will stink throughout the breadth and length of the United States, and may extend even to Hamburg, where our honorable mayor is investigating municipal conditions.

The men who propose to investigate corruption have a wide field for inquiry. The most glaring charge of the many made against the administration is that over $500,000 was paid to a boss and his supervisors instead of to the city treasurer, for an overhead trolley franchise, the life of which on Market street extends to 1932, having fifty years to run from 1882. From this charge the accusations run through

Various Ramifications

of the liquor traffic, such as keeping the high license petition off the ballot and preventing a sincere board of health investigation of the breweries to a paltry $100 paid as a fee to a hoggish little lawyer for a license. One oasis in the desert of rottenness is offered by Police Judge Cabanias in fining the United Railways $500 for running a car without a fender, a mite compared to the action of the federal judge in Los Angeles compelling the Santa Fe to show its rebate books in court and the prosecution in the East of the New York Central and the Standard Oil.

On the bad side of our municipal ledger we have promiuent citizens exempting themselves from grand jury duty, notably a state university regent, and a mouthing millionaire, recalcitrant refugees who refuse to pay rent, a shanty morgue tipped over by a dray, spilling eight bodies in the street, a tenton piledriver blown into the bay, and a coroner's jury failing to fix the blame for five men killed by falling walls; dairy owners and milkdrivers uniting to rob poor consumers, gaspipe artists who rob at noon or at midnight as they will, and a police chief who is under the mistaken impression that he is a live one.

Now that a new grand jury is drawn with a majority kindly disposed toward the city administration, because half a dozen solid citizens refused to serve, the little boss is attempting to

Usurp Official Power,

declares he is prepared to refute the slanders and run the slanderers out of town. He has just let a contract for a $24,000 stable, and he says his wealth was acquired before he was a boss. Perhaps he made a million studying algebra and calculus in college.

Of course the "pure" boss and Acting Mayor Gallagher, termed "The Chaste," threaten reprisals, and already a boy has been arrested for gambling, the son of Frank Maestretti, ex-president of the board of public works, and a firm accuser of the administration, while the son of Reagan, ex-police commissioner, and another denouncer, holds a very shaky job in the police department. Auditor Norton, who formerly was a self-respecting newspaper reporter, threatens to hold up the salaries of the district attorney and his deputies for not attending to business. The board of education, with Superintendent Roncoveiri, a warm henchman of the little boss, and the maker of candy that all the teachers and children are supposed to eat, threatened the dismissal of four teachers who hinted about graft in the department, but the teachers are still undismissed.

A supervisor who has progressed quickly from an alley dump to a Van Ness avenue gin palace denies that he collected damages from the Southern Pacific for a Venus de Milo statue delivered to him armless, and says he knew that she had no arms, but he thought the statue was bogus, as it had a bad twist. He had no time or patience for the many banquets given the simple sailor who sailed the Northwest Passage by our local windjammers, and he says that he will not be present when there is a political rally of San Francisco politicians.

The greatest detective work in the world is being done here now. Accusers are being shadowed, every minute produces a new sensation, and there is a story of a cablegram sent to Hamburg, which said: "Come back, Gene. Hell's popping, and the devil to pay."

AN OBLIGATORY DRESS.

The Only Correct Coat For Any Day Function.

The full frock coat, or "Prince Albert" was first brought into popularity by Pirnce Albert, consort of the good Queen Victoria, who occupied in his day somewhat the position in regard to fashion that King Edward does now.

For day dress, for day weddings, receptions or functions and especially for church and Sunday wear, the full double breasted frock coat is the only correct dress for men. It is obligatory.

Semi-ready frock suits of fine black cheviots, are sold in all the Semi-ready Wardrobes at $25, $30 and $35, according to quality of cloth and silk linings. The Semi-ready frock coat for fall is conservative and modest. The shoulders are square and of natural width. The coat falls just below the knee.

B. Williams & Co. are giving up ready-made clothing and recommending semi-ready tailoring to everyone.

SOILS OF THE PROVINCE.

Prof. Shutt Will Report at Length on the Subject.

Prof. Shutt, chemist of the Dominion experimental farms, has written to Hon. R. J. Tatlow, minister of agriculture, relative to the result of his investigations into the land of the province. The letter was as follows:

Central Experimental Farm,
Ottawa, Oct. 26th, 1906.

Hon. R. J. Tatlow, Minister of Agriculture, Victoria, B. C.:

Dear Sir:—As yet I have not had the necessary leisure to write a report on my recent tour in your province, but you will, I know, be glad to learn that the whole trip from the agricultural standpoint was a most interesting and successful one.

Though some time was spent on Vancouver Island and at Pitt Meadows, our purpose more particularly was to make a special study of the soils, climatic conditions, etc., in the so-called "dry belt," and more especially on the Columbia and the Kootenays and consequently it was in these districts that the larger amount of soil inspection was made and the most meetings held. The information thus gained from personally visiting the locality, examining the soils and discussing the agricultural problems with the ranchers will, I feel sure, prove very useful both now and in the future to those engaged in fruit farming in these districts. There is no way that leads to such valuable results, I am assured, as the plan adopted in 1904 and again followed this year, i. e., personal inspection of the land and discussions with the settlers regarding the methods they have employed and the results they have obtained.

Everywhere we had large meetings and enthusiastic audiences. There is evidently a keen and widespread desire in the newer settled areas for information relating to the treatment of soils, the use of manures, etc., etc., and I think it important at this time, when so many are being attracted to British Columbia and the land is being so quickly taken up, that this information should not only be forthcoming, but that it should be of the most reliable character possible. I have every reason to hope that our trip has been helpful to those at present engaged in one or other branches of agriculture in those parts, and I further think that we are in a much better position than before to advise the many who will undoubtedly settle in your province during the next few years—more especially those in the districts intended by nature to become fruit-growing areas.

We collected along the route a number of soil samples, more or less typical and representative. These will, as time permits, be more completely examined and analyzed in the experimental farm laboratories, Ottawa. This work should furnish most valuable data regarding the possibilities of the soils, their needs and economic treatment.

I would gratefully acknowledge the very valuable assistance rendered me by your deputy minister, Mr. J. R. Anderson. His intimate knowledge of the geography and climatic conditions of the various districts traversed and his acquaintance with what has already been accomplished by the ranchers have been most helpful in making this tour so profitable to all concerned.

FRANK T. SHUTT,
Chemist, Dominion Experimental Farms.

ATTRACTIONS OF VICTORIA.

J. A. Mara Found the East Taking a Deep Interest in This City.

J. A. Mara, president of the Victoria Board of Trade, has returned from a tour to the Eastern points of Canada, and appears better satisfied than ever with Victoria as a place of residence. Mr. Mara included Montreal, Quebec, Toronto and Winnipeg among the points visited. He noticed that Victoria is rapidly becoming known as an ideal place of residence. In the prairie sections from Winnipeg west all who had visited this city were acting as missionaries in sounding the praises of it. Mr. Mara found that many were waiting a favorable opportunity to dispose of their business and come to Victoria to live. They realized that the prices asked for land about Victoria was reasonable, and many had in view going into fruit farming. Acquainted as they are with the importance of the prairies as a market for fruit they realize that horticulture cannot be overdone in British Columbia.

Mr. Mara also noted that British Columbia was showing signs of awakening and there was an air of prosperity prevailing in all the provincial places visited.

A chimney 115 feet high will sway ten inches in a high wind without danger.

VICTORIA DAILY WEATHER

Saturday, Nov. 3.

Lowest temperature	33.9
Mean temperature	51.90

Total precipitation for the month, 5.60 inches; average amount, 2.67 inches.

Bright sunshine, 119 hours 24 minutes; mean daily proportion, 6.35 (constant sunshine being 1).

Shipping

A heavy gale from the south and southeast swept the Pacific Coast last night and wind reaching 60 miles an hour is reported from the mouth of the Columbia river. It is probable that there the greatest velocity was felt, although the storm area is believed to extend north to the upper part of the island coast. Under such weather conditions shipping when caught out in exposed places suffered. News was received from Clallam this morning that the schooner Samar, the ship Ornasia and the steam schooner Signal put into that port to seek shelter. The Signal was bound from Gray's harbor to San Francisco when the storm struck her and forced her a long way off her course. She was badly shaken through wallowing about in the heavy seas, and the message from Clallam, received by a local skipper, states that on arrival this morning the Signal was leaking.

WILL SELECT CREW.

Capt. Gaudin has called a meeting for Wednesday evening to be held in the office of the marine and fisheries department when a coxswain and a new crew will be selected for the lifesaving boat. Once the crew has been appointed periodical boat drills will be held until instructions have been received with respect to the service to be provided on the West Coast.

IROQUOIS SAILS TO-DAY.

The passenger steamer Iroquois, which was recently sold to the Alaska Steamship Company of Seattle, will begin her voyage of 17,000 miles around the Horn to-day.

The boat's cabins have been battened and she has been strongly braced inside to withstand the lengthy voyage.

The steamer Chippewa, which was sold to the same interests in Seattle that bought the Iroquois, left Cheboygan for Detroit last week. Thirteen libel suits which are pending against the Iroquois will be settled, they aggregating only $1,900.

ON THE YUKON.

Advices from Dawson say that all the accommodations are taken up at the ways at West Dawson and Steamboat Slough now presents the appearance of a full-fledged ship yard. All the boats are finding safe winter quarters from the breakup in the spring. The boats laid up there are: Tyrrell, Schwatka, Lightning and the Mary Graff.

The White Pass boats will winter at White Horse, except the steamers Bonanza King and La France. They will find a berth at Hootalinqua, and be in position to accommodate the traffic coming down over Lake Lebarge in the spring before the lake breaks up.

TO LENGTHEN SPOKANE.

"In order to make the steamer Spokane suitable for other than the exclusive excursion trade, the Pacific Coast Steamship Company may add forty-four feet to the vessel this winter," says the Seattle Times. "Plans covering the contemplated changes have been prepared by W. H. Allison, assistant to President Ford, and bids will be asked soon. Forty-four feet added to her present length would give the Spokane a length of 314 feet between perpendiculars, her beam and depth to remain the same as before. The vessel will have an increase of 671 tons cargo capacity. When the changes are completed the Spokane will have accommodations for 314 first class passengers and 60 in the second class. Twelve new state rooms will be added on the hurricane deck, twelve on the upper deck and thirteen on the saloon deck. The dining hall will be enlarged to seat 48 additional persons. The Spokane makes several excursion trips to Southeastern Alaska every summer. When the vessel is lengthened she will be a better sea boat and suitable for any coast run."

INCREASE DEMANDED.

"Steamship companies having vessels in the coasting trade have been notified that an increase of wages, the same pay as is in effect on ocean steamers, will be demanded by first, second and third assistant engineers as a result of a new schedule adopted at a meeting of the Marine Engineers' Beneficial Association held on October 25th," says the Seattle Times. "The salary of the first assistant engineer has been raised from $90 to $100 per month, and that of the second assistant from $80 to $85. The third assistant engineers will receive $70 instead of a salary ranging from $60 to $65. The salary of chief engineers on ocean and coasting steamers will remain at $150 as heretofore. The new schedule also calls for a raise in the monetary consideration the engineers receive in lieu of meals served on board the vessels while they are in port. Chief engineers formerly received $1 per day. In the future they will ask $1.25. All other licensed engineers are to receive $1 instead of 70 cents."

AUSTRALIAN MUTTON.

"Between now and next April twenty-five thousand carcasses of Australian mutton will be imported into Vancouver from Sydney, the entire lot to be brought by the steamships of the Canadian-Australian line," says the Vancouver Province. "P. Burns & Co. have contracted for all the shipments, and that firm will distribute them from this port throughout the interior and to points in the Northwest. The steamship Miowera, now out from Sydney for Vancouver, has on board four thousand six hundred and fifty carcasses. The mutton is stowed in her cold storage chambers. The steamship Aorangi, following the Miowera from Sydney, and arriving here in December, will have four thousand five hundred carcasses, and the next steamer, the Moana, will bring five thousand five hundred in January."

SHIPPING NOTES.

E. E. Blackwood, general Atlantic steamship agent, has just been advised by the Cunard line that the Caronia reached New York yesterday with 1,500 passengers and over $10,000,000 in gold from Liverpool. This is the largest treasure shipment ever carried on a single vessel. The White Star line Celtic reached New York this morning with a total of 2,155 passengers for Canada and the United States from Mediterranean points.

Steamer Tees is due from the West Coast this afternoon. The ship is expected to bring to the city the remains of the late Capt. Rose, of the ill-fated barkentine Skagit, which was wrecked a week ago on the rocks in the vicinity of Clo-oose.

The tug which lost the boom of logs in the neighborhood of Trial Island on Saturday morning was the Tasmanian. She was bringing logs to Moore & Whittington, of this city, and being caught in a strong tide rip the boom broke up.

The steamship Ningchow has returned from the Sound and is to-day discharging at the outer wharf.

The steamship Ellerie entered the dry dock this morning for a cleaning and painting.

Steamer Princess Beatrice will arrive from Skagway this afternoon.

PERSONAL.

P. A. Wilson, of Menomonie, Wisconsin, is at the Dominion. Mr. Wilson is the son of Capt. Wilson, of the great lumbering firm of Wilson & Tainter. This firm conducts one of the largest lumber businesses in Wisconsin.

* * *

Wm. McLean and J. S. Davies, two commercial men of Toronto, are at the Driard.

Ralph Smailes left for New York last night, travelling via the North Coast Limited.

H. G. Mayes, who is well known here, left for Liverpool on Saturday night.

W. C. Wells, M. P. P., is in the city, a guest at the King Edward.

J. E. Broadwell, of Spartla, Wisconsin, is at the Dominion.

Otto Lachmund, of Arrowhead, is staying at the Driard.

A. C. Walters, of Ladysmith, is at the King Edward.

C. M. Woodworth, of Vancouver, is at the Balmoral.

John R. Wright, of Toronto, is at the King Edward.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Nov. 5.—5 a. m.—A heavy gale prevailed yesterday on the outside waters, and a maximum wind velocity of 56 miles occurred last night at Tatoosh; the storm area is now apparently centred off the Queen Charlotte Islands and moving inland; heavy rain has fallen in the province and snow at Barkerville. The American reports are missing this morning owing to wire trouble. East of the Rockies snow has fallen at Edmonton and rain along the boundary line.

Forecasts.

For 36 hours ending 5 p. m. Tuesday.

Victoria and vicinity—Southerly winds, unsettled, with showers and stationary or lower temperature.

Lower Mainland—Southerly winds, unsettled, with rain, and not much change in temperature.

Reports.

Victoria—Barometer, 29.65; temperature, 46; minimum, 46; wind, 6 miles N. E.; rain, .40; weather, cloudy.

New Westminster—Barometer, 29.70; temperature, 46; minimum, 46; wind, 10 miles S.; rain, .62; weather, rain.

Nanaimo—Wind, 4 miles S. E.; weather, cloudy.

Kamloops—Barometer, 29.34; temperature, 48; minimum, 46; wind, 10 miles E.; rain, .14; weather, fair.

Barkerville—Barometer, 29.44; temperature, 34; minimum, 34; wind, calm; rain, .30; weather, cloudy.

Port Simpson—Barometer, 29.40; temperature, 46; minimum, 38; wind, calm; rain, .04; weather, rain.

Edmonton—Barometer, 29.66; temperature, 30; minimum, 26; wind, calm; rain, .20; weather, cloudy.

—The regular meeting of the Ministerial Association was held this morning, when following routine business, a paper was read by Rev. T. F. Tapscott on the subject, "Foreshadowing of the Christ in the Pagan World." The paper showed a great deal of thought and careful preparation, and proved an intellectual and spirited inspiration. The paper was well received, and a vote of thanks was accorded Rev. Mr. Tapscott. A report was received on the preparation of a programme outlining a series of subjects to be taken up by the association during the next five months, which will be brought up again at some future meeting.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Edmonton, Alta.," will be received at this office until Wednesday, November 28th, 1906, inclusively, for the construction of a Public Building at Edmonton, Alta.

Plans and specification can be seen and forms of tender obtained at this Department, on application to Mr. R. J. Manson, Clerk of Works, Edmonton, Alta., and Mr. J. Greenfield, Supt. of Public Works, Winnipeg, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, October 29th, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DEER HUNTER LOST HIS LIFE

DROWNED BY THE CAPSIZING OF CANOE

Old Man Convicted of Manslaughter—Gale on the Coast of Prince Edward Island.

Hastings, Ont., Nov. 3.—News was received this morning from Lamable of the drowning of John Murray at Crooked Lake. Murray, in company with a few others from here, was deer running. The accident happened by the upsetting of a canoe. Murray had resided and carried on a successful business here for a number of years.

Manslaughter.

Belleville, Ont., Nov. 3.—The jury in the Kleinbell murder trial yesterday afternoon brought in a verdict of manslaughter. Ferdinand Kleingbell, a German, 71 years of age, and for over half a century resident in this country, was charged with wilful murder of his aged wife between March 2nd and 5th. The woman was found in a terrible state, from all appearances being literally pounded to death while the prisoner was in a drunken frenzy. Several witnesses testified to having heard Kleinbell declare he had done the deed with his fists and was willing to hang for it.

Old Man Used Knife.

Brockville, Ont., Nov. 3.—A number of boys were teasing an eccentric old man named John O'Connor when he drew a knife and inflicted a severe wound on Dyson Dixon, aged 20. The knife entered Dixon's thigh, just missing a large artery.

Death of Judge Madore.

Montreal, Nov. 3.—Judge J. A. C. Madore, of St. Hyacinthe, former member of parliament for Hochelaga, died this morning at Glengarry hospital, aged 43 years. He had been suffering from chronic disease.

Fierce Gale.

Halifax, N. S., Nov. 3.—A fierce gale has caused more or less damage on Prince Edward Island. On the north side of the island a score of fishing boats are reported wrecked.

Not Guilty.

Winnipeg, Nov. 3.—At the Bruce county assizes at Walkerton, the murder case occupied Tuesday and Wednesday, in fhich Agnes Murphy was charged with the murder of her child, which was thrown from the window of a passing train about a mile north of Chesley, in June last. The crown evidence consisted mainly of admissions made by the prisoner and of medical evidence. The jury brought in a verdict of "not guilty."

Dominion Competition.

Ottawa, Nov. 3.—The competition committee for His Excellency Earl Grey's musical and dramatic trophy which will be competed for during the week commencing January 28th next at Ottawa, has decided that the competition shall be limited to amateurs, and that the term "amateur" shall be described as follows: "No person who within the past five years has lived by the profession of music or drama is eligible. It is not intended to exclude musicians or dramatists who, while music or drama is not their main calling, have accepted nominal pay from church choirs or amateur musical organizations or amateur dramatic associations."

DEEPENING THE LE ROI.

Contract Has Been Let and Work Will Commence Shortly.

Rossland, B. C., Nov. 3.—A contract for deepening the Le Roi shaft from the 1,350 foot level for a distance of 200 feet has been let to Victor Shore, John Sepa and Mathew Walters. The contract price is withheld. Work will be commenced as soon as timbers, which are on the way, are received.

A four-foot chute of pay ore has been located in the Mable, which lies immediately north of the city of Spokane. S. H. McCoy is looking after the work on the Mable in the interest of an Eastern syndicate.

The shaft of the Centre Star to-day reached a depth of 1,800 feet, and the work of cutting out a station on that level will at once be commenced. This is the deepest shaft in the province.

Shipments for the week ending to-night were: Le Roi, 3,000 tons; Le Roi No. 2 (crushed), 1,000 tons; White Bear (crushed), 300 tons. Total for week, 4,300 tons, and for the year to date, 253,348 tons.

STRIKING CHAUFFEUR SHOT.

Wounded by Detectives During Riot in New York.

New York, Nov. 3.—Augustus Lambe, a striking chauffeur, 21 years old, was shot through the neck and critically wounded to-night when an Eighth avenue street car, in which four strikebreakers and an equal number of private detectives were riding, was mobbed.

Police reserves who had been summoned by a riot call from three stations dispersed the mob after the rioting had continued for half an hour.

Lambe was taken to a hospital, and the strikebreakers and detectives arrested. The rioters escaped.

The strikebreakers and officers boarded the car near the garage of the New York Transportation Company, whose electric cab chauffeurs are on strike. Strikers and sympathizers followed the car, pelting it with missiles.

The mob smashed the car windows and attempted to reach its occupants. Then the detectives began firing and Lambe went down. The men arrested are charged with being suspicious persons.

TO RESTORE ORDER.

Havana, Nov. 3.—For the purpose of ending the feeling of insecurity throughout the island, due to the existence of straggling bands of ex-insurgents, Governor MacGoon has ordered the employment of strong bodies of Rural Guards to pursue and scatter the bands and restore order. American troops will replace the Rural Guards in the towns from which the latter are withdrawn.

"No clue is given to the home of the childish writers or their identity, and the letter will be forwarded to Washington."

AUSTRIA AND ITALY.

Ministers Determined to Cultivate Cordial Relations.

Vienna, Nov. 3.—An official note issued to-day indicates that the new Austro-Hungarian foreign minister, Baron Von Aerhrenthan, intends to dissipate Italy's distrust of Austria's intentions in the Balkans. It is stated that there has been a very friendly exchange of views betwen Baron Von Aerhrenthan and Signor Tittoni, the Italian foreign minister, resulting in mutual determination to cultivate close and cordial relations between the two countries.

LANDED IN TREES.

New Haven, Conn., Nov. 3.—The balloon Centaur, which made an ascension from Pittsfield, Mass., this afternoon, landed in a clump of trees at Short Beach, in the town of Bradford, at 7 o'clock this evening. The trip was remarkable in that the record has not been equalled in this country, for the distance of 12 miles was covered in 2½ hours. The balloon landed on the very edge of the water of Long Island Sound.

The balloon was left in the tree and Messrs. Leo Stevens, Capt. Homer W. Hedge, and Lieut. P. M. Butler, of New York, came to this city for the night.

So rapidly did the balloon approach the sea that the only thing to do was to open the valves and make a quick descent. This was done, the huge machine dropping like a shot until it was only 100 feet above the earth.

DISCRIMINATION AGAINST JAPS IN 'FRISCO

Missionary Committee of Methodist Episcapal Church Approves of Action of Roosevelt.

Buffalo, Nov. 3.—The general missionary committee of the Methodist Episcopal church assembled in Buffalo to make its annual appropriations to home and foreign missions, expressed itself in the strongest terms to-day with regard to the anti-Japanese situation in California.

The resolution adopted was in part as follows:

"With a sense of shame as Americans, and a feeling or sorrow as Christians, we have heard from time to time of the indignities, insults, and even violence inflicted on the natives of Japan, Koren, and China by certain classes of persons who resent the presence of these foreigners on American soil.

"The sentiments of humanity, not to speak of international hospitality, should ever protect such strangers as are found to be lawfully within our gates, even in the absence of the obligations imposed by the solemn compacts of international treaties.

"We particularly deplore at this time the reported municipal action of San Francisco, which discriminates against the subjects of a great and friendly power, an action which if rightly interpreted by our government, is in violation of our teraty obligations and the more to our discredit, because directed against a people who have shown themselves human, even to their foes, a people in whose hearts there has been for decades a growing regard for the American nation and under the strong protection of whose government Americans have found favor and safety.

"We are confident that we represent the entire communion of our church—three millions of Methodist Episcopalians—in our hearty approval of the prompt measures taken by President Roosevelt to make good the treaty pledges of our nation and to relieve our nation of any complicity in or sympathy with the conduct complained of."

RUNAWAY FIRE HORSES.

The extensive trestles of the V., V. & E. railway, within the western limits of Pnoenix, were endangered about midnight Thursday by a fire which broke out in a log cabin occupied by sectionmen and located in the gulch close to the trestle.

Long blasts from a railway locomotive whistle brought out the fire brigade in short time, and with a line of hose from the nearest hydrant the blaze was quickly extinguished. When it started, two Italians were sleeping in the cabin. In hitching up the city fire team the horses started before they had the bits in their mouths, and ran away, going over a mile with the wagon and paraphernalia before a wheel was broken and the horses stopped without further injury.

CAMPBELL'S

UNIQUE OPPORTUNITY IN
LADIES' WAISTS

WE have made most advantageous purchases of Ladies' Waists for spot cash. These pretty and most useful garments are modelled in this season's latest fashions in extra good materials, such as Fashionable Plaids, White and Colored Cashmeres, Lustres and Serges. TWO MEN KILLED.

By Explosion of Boiler—Two Were Also Severely Injured.

Buffalo, N. Y., Nov. 3.—Two men were killed and two were badly injured this afternoon by the explosion of a boiler at the American Palace steam laundry on Fargo avenue, and a score of girls who were working in a room twenty feet from the boiler house escaped uninjured. Joseph Schwartzer, a driver, and Elish Simpson, a watchman, were instantly killed. A. Smith, driver, and Thomas MacEwan were terribly bruised.

The building used for laundry purposes surrounds the boiler house in a semi-circle. A narrow alley way separates them. Schwilser and Smith were in the alley way loading their wagons with laundry when the explosion occurred. The sides of the boiler house were blown out, and the men and horses, with debris from the broken walls, were hurled against the side of the main building. Schwilser's body was cut to threads. Fireman MacEwan was found beneath a pile of bricks and broken lumber near the streeet and fully thirty-five feet from the place where he was standing when the explosion occurred.

BATTLESHIP IN COLLISION.

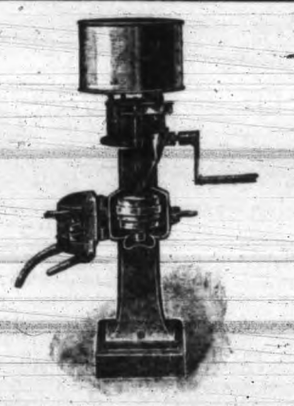

The Virginia Rammed by the Dominion Liner Monro—Both Vessels Damaged.

Norfolk, Va., Nov. 3.—The United States battleship Virginia was rammed to-day in Hampton Roads by the old Dominion liner Monro. Both vessels came afterwards to this port.

The Monro, inward bound from New York, landed her passengers at her pier, while the battleship proceeded to Norfolk navy yard. One set of the battleship's davits were turned in board, while two six-inch after guns and one three-inch gun were raked. The Monro sustained a bad twist on her steel prow. A survey will be made of both vessels.

STEEL KNIFE IN THE FLESH.

That's the sensation experienced by Robert Price, of Heston, Ont. He knew it was sciatica and of course used "Nerviline." As usual it cured and he says: "No liniment can excel Polson's Nerviline. Severe pains made my side lame. It was like a steel knife running through the flesh. I rubbed in lots of Nerviline and was completely cured." A regular snap for Nerviline to ease Sciatica and rheumatism. It sinks into the core of the pain, cures it in short order. Large 25c. bottles at all dealers.

The Melotte

In addition to Hand Separators we sell the MELOTTE TURBINE SEPARATOR suitable for CREAMERIES or LARGE PRIVATE DAIRIES. These Turbines only require from 15 to 18 lbs. of steam pressure to separate 850 lbs. per hour. The Eureka Boiler, which we carry in stock, is just the power required.

We keep all necessary creamery and dairy utensils and make a specialty of suitable tinware for delivery work, including HEAVY RETINNED CREAM CANS.

"Two Opportunities in One"

Reduced Prices in Wallpapers
Reduced Prices in Paperhanging

If any householders are meditating re decorating their homes, Now is the time to save good money both in materials and labor.

BECAUSE we take stock at the end of this month and between now and then we sell our Wallpapers at Cost Price—that accounts for the reduction in materials.

BECAUSE we have a large staff of the Most Expert Decorators in Western Canada whom we keep going during the quiet season—that accounts for the reduction in the price of paperhanging.

THE RESERVE QUESTION.

The people of Victoria have agitated continuously, almost, for many years, and various public bodies have labored in season and out, for the removal of the Songhees Indians from their reserve which nestles so incongruously in the midst of this city, until a representative of the federal government appeared on the scene. The task proved a very baffling one for all who essayed to convince the tribe that their own moral and material interests, as well as the necessities of commerce and industry, demanded a change. The latter phase of the question could not be expected to appeal conclusively or convincingly to the remnant of the tribe. Having become accustomed to the conditions prevailing here, and doubtless appreciating the enhancement of the value of the property held in trust for them by the government of Canada, it is not greatly to be wondered at that the Songhees have regarded with suspicion all movements initiated with the object of securing their transfer to other quarters. All things considered, therefore, it is not to be wondered at that the representatives of the tribe were suspicious of us. They had arrived at the conclusion that the motives of their white neighbors were not above suspicion; that we coveted their very desirable "vineyard" and desired to appropriate it to our own uses for purely selfish reasons.

Under the circumstances, it is perhaps not extraordinary that all efforts to free Victoria from the disadvantages of having a reserve located right in the heart of the city have proved abortive. If we honestly endeavor to comprehend the Indian point of view, it will be freely admitted that they have had good cause for the suspicion with which they appear to have regarded every movement to secure their transfer.

But whatever the sentiments of the Indians upon the subject may be, it is obvious that the time has come when the valuable water front now tied up must be released. The Dominion government has taken the matter in hand, and has offered terms which should remove from the minds of the Indians any suspicion of intention to deal with them harshly or unjustly. They have been tendered terms which can be described as munificent. They seem disposed to accept. But they cannot expect the government to do things which are impossible of accomplishment. If they are wise they will yield themselves to the inevitable; because it is literally true what Mr. Pedley has said: they can never receive a more liberal offer. On behalf of the government he represents Mr. Pdley has even exceeded the bounds of liberality, but that liberality represents the utmost the Dominion is prepared to do. We are not without hopes that wise counsels will yet prevail and that the Songhees reserve question will yet be found to have been finally settled. Because, while there appears still to be one obstacle to overcome, the negotiations have been brought to a point they never reached before; and to that point they were brought by an agent acting on behalf of the Dominion government.

ALL EYES ON CANADA.

The world was a considerable time in opening its eyes to the possibilities of Canada; now that the light has penetrated to its understanding, Canada is becoming one of the best advertised countries in the world. For fully thirty years after confederation our land was ignored: it was worse than ignored, it was contemned. Americans professed to regard it as a narrow strip of practically uninhabitable territory running the length of the boundary line. Now they too have joined in the chorus of envious admiration. And in the most practical way possible they are testifying to their faith in the future of Canada—they are flocking across the border in multitudes. It is notable in this connection what a wonderful effect American opinion has upon the public sentiment of Great Britain. Wherever Uncle Sam leads John Bull is bound to follow, and is subjected to a good deal of criticism in this country because of this peculiar characteristic. It is to be feared the increasing wealth of the United States casts a glamor over the mind of our esteemed parent, rendering him subject to the not unjust suspicion that he is devout worshipper of success as illustrated in the growth of material prosperity.

Sir Howard Vincent, the British public man who has gained considerable of a reputation because of his unfaltering devotion to Mr. Chamberlain and the cause that great man represents, the cause of preferential trade, recently crossed the Atlantic with a team of rifle shots, and got soundly beaten by the Americans (which reverse did not at all affect his admiration for his cousins) said on his return home: "What a change has come over the scene! It is wonderful. Americans, who a few years ago held Canada was not worth thinking about and that the Canadian Pacific Railway would eventually be used for scrap iron, now cry, 'Put your money into Canada. Go to Canada if you can. It is a great country. Everything points that way. The tide of prosperity is absolutely amazing.'" Such statements, coming from such a source and receiving wide publicity on that account, ought to help up very materially. They constitute the most effective kind of advertising. And, after all, it is advertising that counts in the business of building up a country as in pushing every other form of enterprise.

Sir Howard also interviewed the leading public men of Canada, and quotes Sir Wilfrid Laurier as follows on the British preference: "I am perfectly certain that I was right in offering the preference, and I have no intention whatever to withdraw from that position. I am perfectly satisfied that the granting of the preference to British goods by my government in 1898 and 1900 has done a great deal for British trade, and I intend to pursue that course."

The Dominion Parliament will meet on the 22nd of November. The sessions will be held during the winter season from this time forward, instead of in spring and summer. The change will be a salutary one form every point of view. The business of the country will receive more diligent consideration, as the members will not be chafing for two or three months to get away to attend to the demands of their private affairs, which require attention during the active seasons of the year. The session will be an important one, although it is expected that the business of the House of Commons will be devoted almost exclusively to the consideration of the new fiscal measures which will be brought down by the Finance Minister. The country has been so prosperous under the present tariff that it is argued any changes that may be made will not involve material alterations in the schedules at present in force. But it has been announced on authority that the changes contemplated will take into consideration the tariffs of foreign countries; that the tariff of the future will be based upon the fiscal treatment Canada receives from her neighbors; that there will be maximum, minimum and preferential rates. That in itself implies a great deal and suggests that the session will be very important one and that the discussions will be of profound interest not only to Canadians, but to all the nations with which we do business, and with which our commercial intercourse is growing fast. The public ought therefore to follow with profound interest the proceedings of the House.

* * *

His Majesty the Mikado is aggressively squaring up to Uncle Sam, and while the latter affects to hold the Oriental champion in derision he is evidently anxious to conciliate the new aspirant for international honors. Has won one decisive victory over a national giant, the new power is feeling his muscle, being confident that he could give a creditable account of himself against ally who feel disposed to dispute his title. In the vernacular of the ring, the Mikado has "acquired a reputation."

In another column Mr. F. B. Pemberton expresses his views upon the proposal to dispose of a portion of Beacon Hill Park for the purpose of raising a sum of money with which to build premises for the accommodation of certain of the animals in the civic "zoo." There is no doubt Mr. Pemberton expresses the sentiments of practically all the people of the city who have given the proposition their serious attention. The idea of selling any portion of the park for any such purpose, or for any purpose whatever, is absurd. The time is not far distant when we shall appreciate the fact that the park property is none too large; the section that has been marked for sacrifice will some day be the most attractive portion of it. There ought to be no difficulty about raising funds in the ordinary way to make the lives of the captives in the "menagerie" as comfortable, or at least as endurable; as it is possible for wild creatures in confinement to be. If it is not possible to do this, the captives ought to be set free, or so many of them as are legitimately entitled to freedom.

* * *

According to the British Registrar General's quarterly returns of marriages, births and deaths, the birth rate for England and Wales during the second quarter of the present year was the "lowest birth rate recorded in any second quarter since civil registration was established." Against 29.1 per 1,000 in the ten preceding quarters, the rate of births between April and June, 1906, was no higher than 27.5 per 1,000. There is still, however, a considerable difference between birth and death rates in England and Wales, the death rates being only 14.6 per 1,000 during the quarter. This figure, moreover, is 1.3 per 1,000 lower than the rate in the ten preceding second quarters. The number of births in England and Wales during the quarter was 237,187, and the deaths 125,387, an excess of births over deaths of 111,800 against 117,850, 114,389 and 113,726 in the second quarters of 1903, 1904 and 1905.

* * *

There are at the present time twenty-five million gallons of water per day passing down the channel of Millstream at the point from which the city would procure its supply. At that rate quite a respectable-sized pond could be collected in the course of the winter season. But twenty-five million gallons a day is not the limit of the capacity of the stream. It is not yet in full flood.

BEACON HILL PARK.

To the Editor:—I understand that a movement is on foot to petition the council to sell a portion of our park lying between Goodacre lake and the end of Superior street and fronting on Katherine street. This property would then be cut up and sold for building lots, and the backs of the houses would then all face, and deface, our park. This portion of the park is the nearest to the new C. P. R. hotel, and in time could be made into a beautiful rock garden, such as one sees in England and elsewhere, and, in fact, is the only portion where such a thing would be possible without very great expense, as it is the only rocky portion in the park. This we are to dispose of for about $10,000, which would be only a very paltry sum for a city with the prospects Victoria has. Because nothing is done with the property now, and because it is kept in very bad shape, is no reason why we should diminish the size of our already too small park or dispose of any portion of it or have it defaced. I personally cannot think how anyone can sign a petition of this kind, and I most sincerely trust that no more responsible names will be found on the present petition, as if this were allowed to pass it would certainly be a gross outrage. The reason, I understand, is to build a menagerie, etc., with the money. Better wait twenty times over for improvements which have been very doubtful in the past, but keep our park intact.

F. B. PEMBERTON.

VOTING ON BY-LAW.

Ratepayers Are Giving Their Decisions For and Against the Mayor's Scheme To-Day.

Voting on the waterworks by-law has been in progress from 9 o'clock this morning and, up to 3 o'clock, about 350 votes had been recorded. Although this total is not a large one it is considered fair in view of the fact that neither the supporters of the by-law nor the opposition are using any vehicles or making any efforts to bring the ratepayers to the poll. The polling will continue until 7 p. m., a large poll is expected to be recorded between 4 o'clock this afternoon and that time.

In connection with the water question it is interesting to note that several of the aldermen who were out inspecting the Highland district to-day, report that 25,000,000 gallons of water a day is now passing over the main weir at Lavender swamp.

The vote recorded on October 4th, when the last waterworks by-law was voted upon, was 282 for, and 442 against, a total vote of 724 and a majority against the by-law of 160.

A plant for manufacturing artificial marble was recently established in Catania, Italy.

NEW DOCTORS.

Fifteen Were Granted Certificates by the Medical Council.

The council of the B. C. Medical Association completed its labors as a board of examiners on Saturday evening. On account of the large number of candidates who presented themselves for examination to be admitted to practice medicine in the province, the council was occupied for a longer period than usual at this work. Of the twenty-four who presented themselves only 15 were successful. They were: T. B. Green, D. P. Hannington, J. W. Kent, A. G. Levy, J. D. MacLean, Lachlan MacMillan, W. A. McConkey, J. H. McDermott, E. H. McEwen, J. W. McIntosh, A. F. MacKenzie, Neil Munn McNeill, T. C. Mercer, S. Pterskey, J. L. Robinson.

Among those who have just been granted certificates to practice their profession in the province are several from this city. D. P. Hannington is a son of Dr. Hannington, of Victoria. Lachlan MacMillan, E. H. McEwen and Neil Munn McNeill are likewise Victorians. Dr. MacMillan will enter upon the practice of medicine in the city of Vancouver, having made all the necessary arrangements for it. He has had a brilliant career as a student at the medical colleges, and should be eminently successful in practice.

At the meeting of the council for the transaction of general business the question of reinstating Dr. Telford, of Vancouver, was again considered. After discussing the matter it was decided that the council should not interfere in this case, but should allow it to stand as it was. Dr. Telford therefore remains without a certificate to practice in the province of British Columbia.

Cloth is now being successfully made from wood. Strips of fine grained wood are boiled and crushed between rollers and the filaments are spun into threads, from which cloth may be woven in the usual way.

CITY NEWS IN BRIEF

—W. V. North is prepared to give cornet lessons. 'Phone A 1223.

—Electric light baths and massage; ladies and gentlemen. 'Phone 11725; 219 Yates street.

—Have you seen them? What? Why, Foxall's Xmas photographs. $5 cabinets only $4 per dozen until Dec. 1st. Don't miss it. Studio, 53½ Government street.

—SATURDAY will positively be the last day on which you can get your Xmas photos at the reduced price. $7.00 crown folders for $5.00 at the Skeene Lowe studio. Children's sittings as early as possible in the day.

—Silkine (shaded), 35 cents per dozen. Robinson's cash store, 86 Yates street.

—Pilbey's Agent.—In a recent item published in this paper referring to the famous "House of Gilbey," whose wines and spirits are so widely known, the name of the agent of this city was given wrongly, that of the agent in another city being substituted by mistake. The distributing agents for Messrs. W. & A. Gilbey of this city and district are Messrs. Dixi H. Ross & Co., Victoria.

—Clark's dogs, monkey and cat minstrels, announced by Manager Jamieson as one of the features of a strong bill arranged for this week, is an act that will please the older patrons of the New Grand as it undoubtedly will the little ones, for whose special benefit a 10-cent matinee has been arranged for Saturday afternoon. It is said to be one of the best trained little troupes of animals on the road, the monkeys particularly going through all their tricks at the word of command without being led by string, as has always been the case with other monkey shows. The head line act, however, for the grown-ups will be a clever dramatic sketch by Mr. and Mrs. Truesdell, assisted by Mr. Gemp and Miss Thornton, entitled "Aunt Louisa's Advice," which has been the recipient of most flattering press notices all along the line. Another strong number will be the three Bantee brothers in a novel comedy musical act. Fred Palmer is a good magician. Frederic Roberts will sing the illustrated song, "Dear Old Dixie," and the moving pictures are entitled "A Trip Around the Stars" and "Stop Thief." The arrangement of the programme necessitates two overtures, owing to all the acts being full stage acts. The first will be the cornet solo, "Children's House," by Cowen, played by Mr. W. North, and the second the grand march from Tanhauser.

Educational Department

LEARN TO BE A MASTER.

The Association Evening School stands for Better Education, Position, Wages.

Special Lines.—Arithmetic, Bookkeeping, Penmanship and Commercial Correspondence.

Mr. Leonard Tait, Instructor.

Membership and tuition rates reasonable. We assist students to positions.

Ring up Phone 999, or talk with the General Secretary, 40 Broad St.

—The Natural History Society will hold its regular meeting in its room at the parliament buildings this evening at 8 o'clock.

—The Hotel Strathcona at Shawnigan Lake will be kept open during the winter months by Mrs. Wask. Among the guests at the hotel at the present time are Mr. Deane and bride, Mr. and Mrs. Talbot and J. H. Brooks, of England.

—Judge Lampman is expected to arrive home from the East on Thursday or Friday of this week. On Saturday Judge Henderson, of Vancouver, took the county court chambers in this city. A number of applications came up to be disposed of.

—The marriage is announced to have taken place at Grand Forks on October 23rd of Dr. J. W. Frank, Dominion veterinary inspector of Nelson, and Miss Nellie D. Bosworth, of St. Paul. Dr. Frank who is a son of Mr. J. Frank, of this city, is well known here.

—With squibs, skyrockets and Catherine wheels the small boy of Great Britain to-day has his fifth of July. It is Guy Fawkes day. No one in the Old Country would have to be asked "Pjease to remember the fifth of November," but some folks here need a gentle reminder.

—The Ladies' Aid Society of St. Columbia church, Oak Bay, intend holding a concert on Wednesday evening, the 7th inst., when some of the best talent of the city will render a good programme of songs, reading and instrumental music. The proceeds will go to swell the fund with which the ladies hope to clear their church from debt before the year is out.

—There is no truth in the report printed in yesterday's Colonist that there is an agitation to remove the James Bay Athletic Association from its present site. Dan O'Sullivan, one of the pioneer members, stated this morning that there was some talk of moving if the C. P. R. wished to purchase the present location. J. H. Lawson, another prominent member, is of the same opinion as Mr. O'Sullivan.

—At the general meeting of the Victoria, No. 2, Stationery Engineers, held in their rooms, Five Sisters' block, last Thursday evening, a very interesting and instructive paper was delivered by F. C. Winterburn on safety valves and calculations. The subject caused some discussion among the various members present. This was the first of the series that is hoped will be carried on during the winter months. A hearty vote of thanks was accorded to Mr. Winterburn at the termination of the lecture.

—W. A. Temple, formerly mining expert for the government at Dawson, has arrived in Seattle. In course of an interview he said: "The principal feature of Yukon mining at the present time is the investments of the Guggenheims. These operators now own almost all Bonanza and Eldorado creeks, two of the richest creeks in the Yukon. They are preparing for mining in a more extensive fashion probably than has ever been seen before in the north. They are certainly spending a great deal of money. The 'new' country, so far as can be seen, is the Stewart river country. A recent government official there declared that there was as much gold-bearing creek placer in the Stewart country as in all the Tanana. At any rate the government has bought and paid for some expensive pumping machinery. There is a great deal of water in that country, and the miners are pumping out several typical claims. If these prove as rich as we have every reason to expect, there will be a big rush into the country."

—Notice.—Some special barbains for the next two weeks at the Bell Piano rooms, 41 Fort street, Victoria, B. C. J. A. Downs.

—Ladies' golf jerseys, sheeveless; a bargain at $1.50; clearing at $1. Robinson's cash store, 86 Yates street.

—A social under the auspices of the Loyal Orange lodge has been arranged to be given at the A. O. U. W. hall tomorrow evening, commencing at 8 o'clock.

—The regular review of Baxter Hive, No. 8, L. O. T. M., will be held at Semple's hall, Victoria West, to-morrow at 8 p. m. A full attendance is requested.

—The regular monthly meeting of the Friendly Help Association will be held to-morrow morning at 11 o'clock in the market building. All members are requested to be present.

—At the sitting of the Court of Appeal in Vancouver to-morrow application will be made by both parties represented in the appeal brought by the city of Victoria against the Esquimalt Waterworks Company for the hearing of the same in this city.

—Miss Biggart, B. A., will deliver a lecture in the First Congregational church to-night, taking as her subject "The Social Octopus." The lecture is under the auspices of the Citizens' League and the chair will be taken at 8 o'clock. On her previous visit to the city Miss Biggart made a deep impression on every audience she addressed.

—The officers and members of Court Northern Light, A. O. F., will meet in the K. of P. hall at 8 o'clock to-night for the purpose of paying a fraternal visit to Court Vancouver. The latter court has made special arrangements to give the visitors a royal reception and an entertaining evening is anticipated. Court Northern Light has prepared a programme of winter entertainments and social events for the coming season, the first of which will be held on the 14th inst. It will be open to members only.

—The 27th annual report of the Victoria Board of Trade has just been issued. As usual, it forms a valuable epitome of the city's progress commercially, and is embellished with a number of fine engravings. In addition to the annual report the book contains addresses in reply by members of the government, and many appendices dealing with subjects of local interest. Among these are extracts from the address given by Earl Grey at the opening of the Royal Agricultural Society. The report is made to include not only the city's business, but various industries on Vancouver Island tributary to this city are referred to. The report forms a valuable reference volume for business men.

He Is Correct.

DR. HAMILTON PROVES THAT PILES ARE CAUSED BY CONSTIPATION AND STRONG CATHARTICS.

Knowing the frequency with which people suffer from this ailment, Dr. Hamilton made an exhaustive study into the cause of piles.

He found that the lower part of the bowels is like a network of blood-vessels, and if subjected to persistent pressure, a section will bulge out and form what is commonly known as piles.

The only effective mode of curing this trouble is the regular use of Dr. Hamilton's Pills, which can be taken before retiring. Next day will bring wonderful relief.

"I suffered up to about the limit of human endurance with piles," writes Miss Lueders, from Cornwall, Ont., "I was employed in a factory here, but for a while had to give up work till I got better of this trouble. I read in the Montreal Herald about Dr. Hamilton's Pills, and after using them for two weeks was cured. I can recommend these pills very highly; there are none better. They at once relieve and prevent a constipated condition of the bowels, and from my experience can be depended upon as a perfect safe-guard against piles. Dr. Hamilton's Pills of Mandrake and Butternut, I am sure, would be a benefit to every girl or woman."

Take Dr. Hamilton's Pills and your system will be regenerated, revitalized, and made proof against disease.

Good for men, excellent for women, and most effective for children. All ages and both sexes find Dr. Hamilton's Pills a marvelous medicine. Although active, they do not gripe or cause inconveninece, still htey cleanse and purify the system, thereby maintaining a high standard of health. Sold by all dealers, 25c. per box, or five boxes for $1.00, or by mail, from N. C. Polson & Co., Hartford, Cann., U. S. A., and Kingston, Ont.

—15c. flannelettes, elegant patterns, 36-inch; 1st month, 10c. Robinson's cash store, 86 Yates street.

WILL HOLD CONVENTION.

Sunday School Delegates From All Parts of Province to Meet in Calvary Church.

A convention of delegates from various parts of the province, together with many local representatives, will be held in the Calvary Baptist church on Wednesday evening and all day Thursday, the 8th inst., to discuss the present standing of the Sunday school and to inaugurate a forward movement throughout the province. Rev. W. T. Merritt, field-worker for the Pacific northwest, will attend, and will deliver two stirring addresses on Sunday school work and methods.

The meetings will commence at 7.30 o'clock on Wednesday evening, immediately upon the arrival of the Vancouver delegation. A reception committee will meet the contingent from the Terminal City, and escort them to Calvary church.

The afternoon session on Thursday will be devoted to "Denominational Conferences," and like topics of interest will be discussed.

All, whether interested or not, are most cordially invited to attend this convention.

—The weekly rehearsal of the Victoria Musical Society will be held on Wednesday in the city hall at 8 o'clock.

—Men's wool sox, cheap at 15c.; yours at 10c. Robinson's cash store, 86 Yates street.

For the trans-Mississippi Commercial Congress to be held at Kansas City, November 20th to 23rd, the Northern Pacific Railway Company will sell round-trip tickets at greatly reduced rates on November 14th and 15th. E. E. Blackwood.

NEW GOODS
FOR OLD

CHRISTMAS is approaching. The season when our showrooms become the centre of attraction to all Victorians, our friends from the country and other cities. It may interest you to know we are extensive purchasers of old Gold and Silver, Old Fashioned Jewelry and Precious Metals, also that we take these in exchange for, or part payment for, New and Fashionable Goods.

To illustrate our meaning, you may have an old-fashioned ring like this. You would prefer one with modern settings. Just bring your old ring to us, and we will allow you its full present value as part payment. You may possess old gold or silver for which you have no use. We will give you its present market value either in solid cash or exchange.

TO BREAK UP A COLD IN 24 HOURS AND CURE ANY COUGH THAT IS CURABLE

Mix one-half ounce of the Virgin Oil of Pine (Pure) with two ounces of Glycerine and half a pint of good Whisky. Shake well and use in teaspoonful doses every four hours.

Dr. Leach, the famous throat and lung specialist, who established a camp for consumptives in the Pine Woods of Maine, and whose wonderful cures there have attracted the attention of the civilized world, declares that the above formula will strengthen weak lungs, relieve the cough, heal the bronchial tubes, and cure any case of lung trouble that is not too far advanced, providing the patient will assist by taking plenty of outdoor exercise, inhaling long deep breaths every few minutes.

It is said the mixture will break up an ordinary cold in twenty-four hours, and, being free from opiates and drugs, is far preferable for use among children to the ordinary cough mixtures.

The ingredients can be secured from any good prescription druggist at small cost and easily prepared in your own home.

Inquiry at the prescription department of one of our leading druggists elicited the information that Virgin Oil of Pine (Pure) is put up only in half-ounce vials securely sealed in a round wooden case, with engraved wrapper, showing the name—"Virgin Oil of Pine (Pure)"—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are being put out under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably nausea, and never effect the desired results.

A local physician who is familiar with the treatment used by Dr. Leach in his camp in the Pine Woods, says it is undoubtedly the most effective known to medical science at the present time and save for the open air life in the forest would prove just as effective if used in the home. He says the formula given above is the one used by Dr. Leach and that it has the unqualified endorsement of the leading physicians of the country.

The physician added, if this formula was known and used generally by the people, throat, lung, and bronchial affections would rarely reach an acute stage.

The Pure Virgin Oil of Pine is also a perfect neutralizing agent for uric acid. A few drops taken on sugar night and morning will heal and regulate the kidneys and relieve the most obstinate case of rheumatism if caused by uric acid in the system.

The one conspicuous play of southern life now being presented to the public is "Under Southern Skies," written by Lottie Blair Packer, author of "Way Down East." Its success has favor with each succeeding season. "Under Southern Skies" is now in its sixth season, and it is unquestionably one of those plays which like "The Old Homestead" and "Way Down East" seems destined to go on forever. The scenery of "Under Southern Skies" is a reproduction of the luxuriant, flowery lanscapes and stately homes of the south; the women wear the dainty, airy costumes affected by the high born Southern woman, and the play fairly bubbles with the gay and lavish hospitality for which the people of the South have always been noted. Woven throughout the scenes of merriment and music, with which the play abounds, is a story of intense interest that holds the audience from the rise to the fall of the curtain. A large cast of 27 people is employed in the presentation of this play, and each one has been selected because of his or her special fitness for the part. "Under Southern Skies" will be presented at the Victoria theatre this evening.

"Sign of the Cross."

The Boston Herald recently published the following article regarding "The Sign of the Cross," which is to be presented at the Victoria theatre on Wednesday evening: "Most magnificent of all the attractions offered at the Boston music hall this year is William Greet's original London production of Wilson Barrett's great religious drama, 'The Sign of the Cross.' The play has been commended by many eminent authorities for its beneficial moral influence, but it is certainly not lacking in the element of intense interest, and the opening performances of the present run provoked storms of the most enthusiastic approval. The work of the present company is of a remarkably high order. Of the players much might be said in praise, but the points of excellence are too many for enumeration."

Yaw Concert Friday.

The announcement that Miss Ellen Beech Yaw, the most famous of all living coloraturas, will give a concert at the Victoria theatre on Friday next, November 9th, has caused no little stir in the ranks of Victoria's music-lovers and playgoers, and a big demand for seats is anticipated when the sale opens. Miss Yaw will bring as her support two talented musicians and the walls of the popular play-house will certainly ring with melody on Friday night. There is no greater artiste of the present time, in the limited company of coloratura singers, than Miss Yaw, and the golden-voiced Californian girl has deservedly won the plaudits of press and public during the whole of her public career.

The world has never yet been crowded with either singers or musicians, and the public is ever ready to extend its support and patronage to any one of the few stars in the musical constellation. Miss Yaw is a star among stars and there is little doubt that the triumphal record of continued success that has so far attended her present tour will not suffer when she makes her bow to a local audience.

The Gerhard-Heintzman Baby Grand piano will be used at this concert. Fletcher Bros., sole agents.

Miss Jessie Maclachlan.

The appearance of the Jessie Maclachlan Concert Company at the Victoria theatre on Tuesday, November 13th, will be hailed with delight by music-lovers. Miss Maclachlan has returned with additional honors, and is surrounded by one of the best companies that has ever traveled through Canada. Douglas Young, the lyric tenor with this company, has a voice of excellent range and clearness, and the duets in which Miss Maclachlan joins with him are a delight to audiences everywhere. The 'cellist, John McLinden, adds much to the delightful programme, and the newspaper critics give him the Stradavarius, valued at $30,000. Murray Graham, a clever young Scottish pianist, also accompanies Miss Maclachlan.

Miss Maclachlan has positively announced that this tour will complete her public career and, in view of this fact, local musical circles are stirred with an enthusiasm over the coming concert which will undoubtedly mean a packed house when the famous Scottish "Queen of Song" takes her farewell of Victorians.

The Empress Theatre.

At the Empress theatre this evening Miss Berthe Knatvold and her supporting company of clever players will present, by special request, the famous English farce comedy, "The Private Secretary." The irristible wit and humor of this piece have placed it in the highest position among the comedies and farces of the past century and, in acceding to the request of many patrons, who have called for the play, the management of the comfortable and cosy Fort street house, feels assured that it will be accorded a liberal patronage. Perhaps for the first time since the company's advent into the city, Mr. Hooley will be able to bring into play all his adbilities as a first-class comedian in this piece. Miss Knatvold will have an opportunity of showing the light side of her dramatic nature and, in fact, the whole company will be seen in a new aspect. During the latter part of the week, commencing on Thursday evening, a powerful English success, entitled "The Mysterious Lord Deverell," will be presented. This production played two successful seasons at the Queen's theatre, Lndon, and has never yet been staged in the Dominion.

REGIMENTAL ORDERS.

There Will Be a Parade on Friday Evening.

The following orders have just been issued by Lt.-Col. J. A. Hall, commanding the Fifth Regiment:

Victoria, B. C., Oct. 31st, 1906.

The following extract from G. O. 142, September 11th, 1906: "5th British Columbia Regiment. General Order 36, May, 1901, so far as it concerns Capt. J. F. Foulkes, is amended to read: Capt. J. F. Foulkes is transferred to the reserve of officers, 15th March, 1901."

The regiment will parade on Friday, November 9th, at 8 p. m. Staff and band will attend. Dress, drill order.

By order,
(Signed) W. RIDGWAY-WILSON, Capt.,
Adjutant 5th Regt. C. A.

THE ORIGINAL CORN CURE.

No substitute has ever been devised that gives the quick, painless results of Putnm's Corn Extractor. For fifty years its success has been unequalled. For safety and thorough cure use "Putnam's" only.

Waiting rooms with beds are a specialty of railway stations in Sweden. The porter calls the sleepers 10 minutes before the arrival of their trains.

SHILOH

Nothing can or will break up and drive away a cold so promptly, effectively and safely as Shiloh. You should never be without it in the home.

The most stubborn hacking coughs yield easily to the curing power of Shiloh. No cough can resist it. Specially good for children. 25c., 50c., $1, with guarantee.

BADGES TO TELL OF BOY VICTORS

NEW TRACK COMPETITIONS FOR SCHOLARS EVERY FALL

The Public Schools Athletic Association Issues Rules Governing Autumnal Field Days.

The apathy on the part of parents towards the sports of the youngsters should not be felt any longer. Saturday's junior football match was attended by very few. If the boys and girls get disheartened parents and other elder members of the family are to blame. Victoria could put twice as good junior lacrosse teams in the field to-day if only the youngsters had been supported in a proper manner. In the intermediates, last season, although Yorke did his best, the support given his efforts by the city was pitiful. This, with the previous feeling engendered by parental apathy, accounts in a large way for the ill success attending the twelve who did their best for Canada's national game. It is to be hoped that the latest departure in school sports will mark a turning point in the direction of enthusiasm. Irying could not act to an empty house or Paganini play so well to no audience but the flies in the atmosphere.

The athletic badge competition, announced in the Times a few days ago, has now taken definite shape under the auspices of the Public Schools Athletic League, that has conducted an annual summer field day for scholars in the public schools. The new competitions will not eliminate this event, but supplement it, so that there will be two field days for the youngsters every year hereafter. The standards and rules for the new competition are as follows:

The standard for this competition has been set by the executive as follows:

For boys of public schools under 13 years of age: 60 yards run, 8 seconds, pull up 4 times, standing broad jump, 5 feet 9 inches.

For boys of public schools or High school under 15 years of age: 100 yards run, 14 seconds; pull up 6 times; standing broad jump, 6 feet 6 inches.

For High school and public school boys over 16 years of age: 220 yards run, 28 seconds; pull up 9 times; running high jump, 4 feet 4 inches.

The athletic badge competition shall take place once a year in the fall.

The following general rules shall govern the official competition:

Chinning.—There shall be but one trial in the chinning. The boy shall extend himself to his full length before and after each pull up, and shall be obliged to raise his body to such a height as to bring his chin over the bar.

Standing Broad Jump.—A joist five inches shall be sunk flush with the ground. The outer edge of the joist shall be called the scratch line and the measurement of all jumps shall be made from it at right angles to the nearest break in the soft ground or turf by any part of the body of the competitor. In front of the scratch line the ground shall be removed to the depth of three and the width of twelve inches outward.

A Foul Jump.—Shall be one where the competitor in jumping off the scratch line makes a mark on the ground immediately in front of it and shall count as a trial jump.

A Fair Jump.—Shall be one that is made without the assistance of weights of any kind. Each competitor shall have three trial jumps and the competition shall be decided by the best of the three. The feet of the competitor may be placed in any position, but shall leave the ground once only in making an attempt to jump. A competitor may rock backward and forward lifting his heels and toes alternately from the ground, but may not lift either foot clear of the ground nor slide either foot along the ground in any direction.

Running High Jump.—A fair jump shall be one made without the assistance of weights. When the bar is removed it shall constitute a trial jump. The height shall be measured from the middle of the bar to the ground in a direct line. Each competitor shall be allowed three trial jumps and if on the third trial he shall fail he shall be declared out of the competition.

Dashes.—The rules governing the annual field meet shall govern this event. With reference to false starts a competitor shall be penalized a yard for the first offence, and an additional yard for the second. On the third false start he shall be disqualified from the competition.

The jumping tests shall take place at the respective schools of the competitors; the chinning at the Pemberton gymnasium, and the dashes at Oak Bay athletic field.

Those applications only shall be recognized which are certified to by the principal.

The tests held at the schools shall be conducted by at least two of the staff, who shall certify to the results. The other tests shall be conducted by those appointed by the committee.

It is the intention of the executive to present to each school holding this competition an engraved certificate with the names of the successful competitors, and if possible to present to each successful competitor a badge or some other token.

The competitions shall close this year on December 15th.

INDOOR BASEBALL.

OFFICERS AND SERGEANTS.

On Thursday evening, the regular athletic night at the drill hall, there will be an interesting event. The officers and sergeants will try conclusions at indoor baseball, that has only been played once before in public in this city.

HOCKEY.

GARRISON WON BY ONE.

The Garrison hockey team won from the Victoria club at Work Point on Saturday by three goals to two. It was a very hard match. The winning team consisted of Wall, Williams, Sullivan, Jones, Courcey, Steadman, Greenwood, Corbett, Robbins, Warder and Wright.

LADIES ARE TRAINING.

The Ladies' Hockey Club held a good practice at Oak Bay on Saturday afternoon concurrently with the football match. They are getting in good condition for the game with Nanaimo late this month.

ASSOCIATION FOOTBALL.

HONORS WERE EVEN.

The two branches of the Victoria United, the Wanderers and Rovers, came out even in Saturday afternoon's match. Each side scored two goals. The Rovers made the first goal, which induced Captain Goward, of the Wanderers, to send Schwengers forward, and, with the high wind assisting, two goals were scored by the latter in quick succession. Then Schwengers came back and Wilson resumed his position on the forward line. The last goal for the Wanderers, that completed the scoring, was made by a fumble on the part of Lorimer, who, in trying to save a hot shot from Meredith sent the ball through his own goal. J. G. Brown acted efficiently as referee.

OLD DISPUTE SETTLED.

The question of which is the better team, the Central or South Park juniors, was settled for the time being on Saturday, when, by the narrow margin of one goal to nil, the Centrals won from their old opponents. This places the Centrals in good line for the championship in the series for boys under fifteen. But there is another series that is creating even more interest. As stated in this column, the sixteen-year series has to be replayed and the Centrals hope, by having the North Wards strictly down to the age limit, to repeat the performance of last season and come out ahead.

TWO TEAMS PRACTICE.

The senior and intermediate members of the Y. M. C. A. football branch turned out well on Saturday afternoon for practice. They meet the Fifth Regiment on November 24th. As the military have two matches before that date they should be well limbered up. Next Saturday the Garrison and Fifth will have a contest that promises to be equally good to last week's game between the Wanderers and Rovers reported above.

BASKETBALL.

Y. M. C. A. TO-NIGHT.

The second game in the Y. M. C. A. league, between teams three and four, will be held in the gymnasium to-night. The opposing septettes are: No. 3—Nels Gowen (captain), H. Erb, A. Spencer, F. Schneider, Turner, Dickie and D. Campbell. No. 4—R. Shanks (captain), R. McKittrick, O. Barton, F. Taylor, D. C. Reid, H. P. Ruter and E. D. McQuade.

In the initial match, on Thursday last, No. 1 team, captained by T. Peden, won from No. 2, headed by F. Baylis, with a score of 46 to 40.

PRACTICE ABANDONED.

The Fifth Regiment intended to finally organize the inter-company league on Friday evening and have a practice match afterwards. This idea has been abandoned in order to allow every man to attend the parade in honor of His Majesty's birthday.

RUGBY FOOTBALL.

VANCOUVER SUFFERS DEFEAT.

There will be no band to play "See the Conquering Hero Comes" when Reggie Woodward returns to the Terminal City. There is no use passing over the fact that the two universities in California have demonstrated that, even in the first year of their acquaintance with a species of Rugby football, it requires more than a scratch team from British Columbia to beat them.

Saturday's match must make the minds of Vancouver Rugbyites sore. Vancouver, 3; Stanford University, 16; tells the tale too well to need any comment. The Terminal City in the series of three games beat the University of California by one point, but the two games with Stanford totalled: Vancouver, 6; Stanford, 21. It must have felt like a lacrosse match with New Westminster—Stanford wears a similar uniform—when Vancouver found itself so well trimmed. The result of the tour is as follows:

Vancouver, 0; University of California, 5.

Vancouver, 3; University of California, 0.

Vancouver, 3; University of California, 0.

Vancouver, 3; Stanford University, 5.

Vancouver, 3; Stanford University, 16.

BLUE-GOLD AND CARDINAL.

Next Saturday will be the great battle between Stanford and the State University. If the results with Vancouver are any criterion, the cardinal shirted boys from Palo Alto should wipe out the University of California. It is probable that a record crowd will turn out.

HOW SEATTLE VIEWS IT.

The Seattle Post-Intelligencer of yesterday says: "The day of Rugby football is now dawning in California. For some time the students looked on the British game askance, but now they are taking to it like ducks to water and the present tour of the Vancouver team in the south is doing wonders to popularize the game. Even those who had strongly opposed the game when first introduced are now among its strong supporters. Los Angeles is taking up the sport and throughout California it is supplanting the old collegiate game. The talk that Rugby will not last another season is believed to be the talk of a few disgruntled supporters of the old game."

THE RING.

BLOWS IN PICTURES ALIVE.

When a descendant of the Vikings and one of the statuesque natives of Africa met in the ring at Goldfield last Labor Day, there was a new record in gate receipts established for lightweight fighting. Joe Gans and Battling Nelson met and in the 42nd round the former won on a foul by Nelson. There had been evidence from the opening minutes of the contest that something more than the gathering of dollars was behind it. The reasons are now known. Very few fighters will even take on with a negro, and Gans had done much to foster this antipathy by acting under the direction of managers in a manner that suggested crookedness. Nelson himself is out for the dough all the time, and, like Jimmie Britt, will exert his last pound of exertion not for the glory of the fight so much as for what is in it. He also, as stated in interviews before the contest, felt that he could demonstrate that a white man could, even in brute force and endurance, more than equal the colored.

All the evidence of this strenuous battle is given in the 3¼ miles of film that are used for the bioscopic reproduction that will be given at the Victoria theatre to-morrow. The trio in the ring, the seconds at the corners, are there in life size, and all the animation of a great fistic contest. But not the least interesting feature of the pictures is the crowd whose every lineament is shown with remarkable clearness.

"What is his occupation?" asked Mr. Paul Taylor at Marylebone police court, London. "He is a poet," was the reply. "That is a man's amusement, not his occupation," was the magisterial pronouncement.

There is no doubt that people would be healthier and happier if they drank

ACCIDENT INSURANCE FREE OF COST

A few days since, The Times made its first offer of free accident insurance to paid-up subscribers to the paper for a certain length of time. The response has been remarkable, the public showing its appreciation of the opportunity afforded by promptly taking advantage of it. Old subscribers have renewed, new ones have sent in their applications, and many of the latter have come from out-of-town readers. We started this campaign with the object of securing **One Thousand New Subscribers** before the beginning of the year. The offer will remain open during that time, so that those whose subscription to other papers expire in the meantime, can subscribe for The Times and obtain free

An Accident Policy For $1,000; A Total Disability Policy For $500

THE PAPER

THE TIMES gives all the news of Victoria, Vancouver Island and the Mainland of British Columbia It contains the full Associated Press News Service, Special Correspondence from Ottawa, Toronto and Coast Points, Weekly Letters from London, Sport, Shipping and Local News, Children's Column and Comic Pages, and, during the Sessions of the Commons and Legislature, Full Reports of the Proceedings.

THE POLICY

Every holder of one of these policies, between the ages of 16 and 65, is protected by insurance for twelve months, in case of death by accident on any street car, railway train, steamer or other public conveyance propelled by steam, electricity or cable, to the extent of $1,000. Every holder of one of these policies, between the above-mentioned ages and under the above circumstances is protected by insurance in case of the loss of limbs or eyes, involving total disability, to the extent of $500.

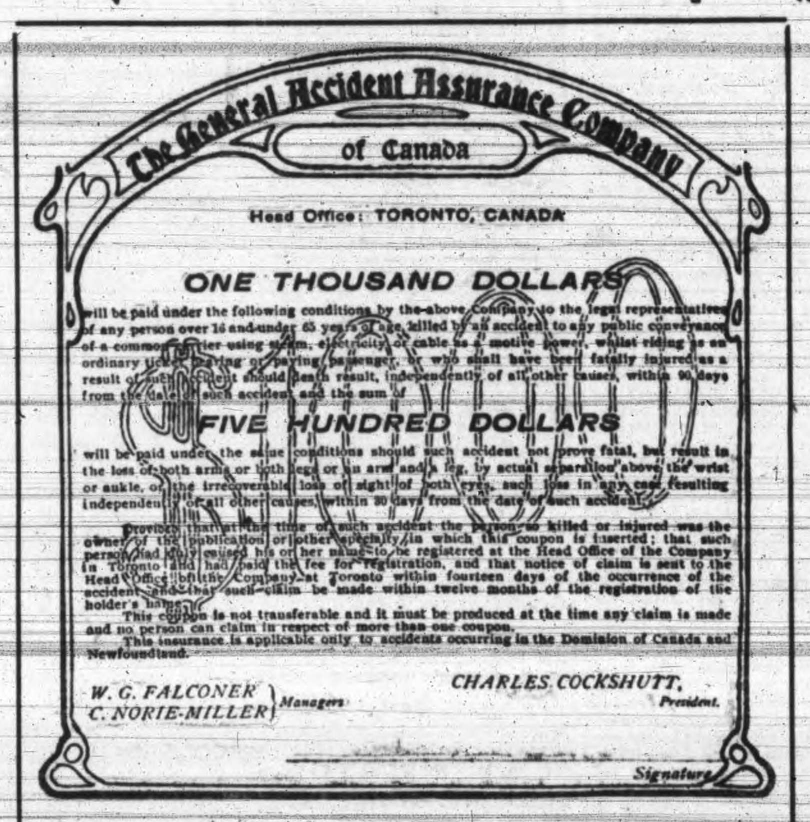

THE OFFR IS STILL OPEN

DON'T FORGET: You get the daily newspaper every night during the long winter evenings, when it is specially welcome to every member of the family, AT THE REGULAR PRICE. THE TIMES pays your policy premium; we protect our paid-in-advance Subscribers AT OUR OWN EXPENSE. These policies are payable by the

General Accident Insurance Company of Canada

A Canadian Company of the highest financial standing. They send direct to you a policy, good for one year from date of registration, and the policy is unlimited as to time to be registered. All you are asked to pay is the registration fee of 20 cents. We pay the premium.

Don't you think you should protect your family when it costs nothing but a slight registration fee? Don't imagine that the registration remittance of twenty cents represents the premium on the policy. IT DOES NOT. The Publishers pay a large premium direct to the Insurance Company. The registration coupon and fee of twenty cents overcomes the possibility of dispute on any question of identity. It is not even necessary to have the policy on one's person at the time of the accident; it can be filed away the same an any other valuable document.

The General Accident Assurance Company of Canada

Head Office: TORONTO, CANADA

ONE THOUSAND DOLLARS

will be paid under the following conditions by the above Company to the legal representatives of any person over 16 and under 65 years of age, killed by an accident to any public conveyance of a common carrier using steam, electricity or cable as a motive power, whilst riding as an ordinary ticket bearing or paying passenger, or who shall have been fatally injured as a result of such accident should death result, independently of all other causes, within 90 days from the date of such accident, and the sum of

FIVE HUNDRED DOLLARS

will be paid under the same conditions should such accident not prove fatal, but result in the loss of both arms or both legs or an arm and a leg, by actual separation above the wrist or ankle, or the irrecoverable loss of sight of both eyes, such loss in any case resulting independently of all other causes, within 30 days from the date of such accident.

Provided that at the time of such accident the person so killed or injured was the owner of the publication or other specialty in which this coupon is inserted; that such person had [illegible] caused his or her name to be registered at the Head Office of the Company in Toronto and had paid the fee for registration, and that notice of claim is sent to the Head Office of the Company at Toronto within fourteen days of the occurrence of the accident and that such claim be made within twelve months of the registration of the holder's name.

This coupon is not transferable and it must be produced at the time any claim is made and no person can claim in respect of more than one coupon.

This insurance is applicable only to accidents occurring in the Dominion of Canada and Newfoundland.

W. G. FALCONER, C. NORIE-MILLER } Managers

A CHANCE FOR PRESENT SUBCRIBERS.

Every friend of THE TIMES can help to swell the number of new subscribers to the thousand mark, and we are ready to recognize such efforts in a liberal way.

We will present a $1,000 Accident Policy to everyone who sends in New Subscribers, accompanied by remittance, as follows:

For 1 New Subscriber for 3 months to The Daily Times, delivered

For 1 New Yearly Subscriber to The Yearly Times, by mail

For 2 New Yearly Subscribers to The Twice-a-Week Times, by mail

Where two new Subscribers to the Daily (by mail) for one year are sent in, the sender will receive two $1,000 policies. Four New Subscribers to the Twice-a-Week Times would also call for two $1,000 policies.

This will not interfere with the premium offer to New Subscribers themselves, each of whom will be able to take advantage of the offer of a policy to Paid-Up Subscribers for a specified period.

YOU GET

The Times Delivered For 3 Months $2.25

An Accident Policy for $1,000

A Total Disability Policy for............ $500

FOR THE PRICE OF THE TIMES ALONE!

This same offer is open to paid-up subscribers of **THE DAILY TIMES** for one year, delivered by mail $3, **SEMI-WEEKLY TIMES** for two years, delivered by mail $2.

BY GEORGE DOUGLAS.

CHAPTER IX.—(Continued.)

The stranger laughed; a little deprecating giggle. "I meant it was fine weather for the fields," he explained. He had meant nothing of the kind, of course; he had merely been talking at random in his wish to be civil to that important man, John Gourlay.

"Imphm," he pondered, looking round on the weather with a wise air; "Imphm; it's fine weather for the fields!"

"Are you a farmer then?" Gourlay nipped him, with his eye on the white waistcoat.

"Oh—oh, Mr. Gourlay? A farmer, no, Hi—hi! I'm not a farmer, I daresay, now, you have no mind of me!"

"No," said Gourlay, regarding him very gravely and steadily with his dark eyes, "I cannot say, sir, that I have the pleasure of remembering you!"

"Man, I'm a son of auld John Wilson, of Brigabee!"

"Oh, auld Wilson, the mole-catcher!" said contemptuous Gourlay. "What's this they christened him now? 'Toddling Johnnie,' was it noat?"

Wilson colored. But he sniggered to gloss over the awkwardness of the remark. A coward always sniggers when insulted, pretending that the insult is only a joke of his opponent, and therefore to be laughed aside. So he escapes the quarrel which he fears a show of displeasure might provoke.

But, though Wilson was not a hardy man, it was not timidity only that caused his tame submission to Gourlay.

He had come back after an absence of fifteen years, with a good deal of money in his pocket, and he had a fond desire that he, the son of the mole-catcher, should get some recognition of his prosperity from the most important man in the locality. If Gourlay had said, with solemn and fat-lipped approval, "Man, I'm glad to see that you have done so well!" he would have swelled with gratified pride. For it is often the favorable estimate of their own little village—"What they'll think of me at home"—that matters most to Scotsmen who go out to make their way in the world. No doubt that is why so many of them go home and cut a dash when they have made their fortunes; they want the cronies of their youth to see the big men they have become. Wilson was not exempt from that weakness. As far back as he remembered Gourlay had been the big man of Barbie; as a boy he had viewed him with admiring awe; to be received by him now, as one of the well-to-do, were a sweet recognition of his greatness. It was a fawning desire for that recognition that caused his smirking approach to the grain merchant. So strong was the desire that, though he colored and felt awkward at the contemptuous reference to his father, he sniggered and went on talking, as if nothing untoward had been said. He was one of the band impossible to snub, not because they are endowed with superior moral courage, but because their easy self-importance is so great, that an insult rarely pierces it enough to divert them from their purpose. They walk through life wrapped comfortably round in the wool of their own conceit. Gourlay, though a dull man—perhaps because he was a dull man—suspected insult in a moment. But it rarely entered Wilson's brain (though he was cleverer than most) that the world could find anything to scoff at in such a fine fellow as James Wilson. A less ironic brute than Gourlay would never have pierced the thickness of his hide. It was because Gourlay succeeded in piercing it that morning, that Wilson hated him for ever—with a hate the more bitter because he was rebuffed so seldom.

"Is business brisk?" he asked, irrepressible.

Business! Heavens, did ye hear him talking? What did Toddling Johnny's son know about business? What was the world coming to? To hear him setting up his face there, and asking the best merchant in the town whether business was brisk! It was high time to put him in his place, the conceited upstart, shoving himself forward like an equal!

For it was the assumption of equality implied by Wilson's manner that offended Gourlay—as if mole-catcher's son and monopolist were discussing, on equal terms, matters of interest to them both.

"Busness!" he said gravely. "Well, I'm not well acquainted with your line, but I believe mole traps are cheap—if ye have any idea of taking up the oald trade!"

Wilson's eyes flickered over him, hurt and dubious. His mouth opened—then shut—then he decided to speak after all. "Oh, I was thinking Barbie would be very quiet," said he, "compared wi' places where they have the railway! I was thinking it would need stirring up a bit."

"Oh, ye was thinking that, was ye?" birred Gourlay, with a stupid man's repetition of his jibe. "Well; I believe there's a grand opening in the moleskin line, so there's a chance for ye! My quarrymen wear out their breeks in no time!"

Wilson's face, which had swelled with red shame, went a dead white. "Good-morning!" he said, and started rapidly away with a vicious dig of his stick upon the wet road.

"Goo-ood mor-o-ning, serr!" Gourlay birred after him; "Goo-ood mor-r-ning, serr!" He felt he had been bright this morning. He had put the branks on Wilson!

Wilson was as furious at himself as at Gourlay. Why the devil had he said "Good morning?" It had slipped out of him unawares, and Gourlay had taken it up with an ironic birr that rang in his ears now, poisoning his blood. He felt equal in fancy to a thousand Gourlays now—so strong was he in wrath against him. He had gone forward to pass pleasant remarks about the weather, and why should he noat?—he was no disgrace to Barbie, but a credit rather. It was not every working man's son that came back with fire hundred in the bank. And here Gourlay had treated him like a doag! Ah, well, he would maybe be upsides with Gourlay yet, so he might!

CHAPTER X.

"Such a rickle of furniture I never saw!" said the Provost.

"Whose is it?" said Brodie.

"Oh, have ye noat heard?" said the Head of the Town with eyebrows in air. "It beloangs to that fellow Wilson, doan't ye know? He's a son of oald Wilson, the moldie-man of Brigabee. It seems we're to have him for a neighbor, or all's bye wi't. I declare I doan't know what this world's coming to!"

"Man, Provost," said Brodie, "d'ye tell me tha-at? I've been over at Fleckie for the last ten days—my brother Rab's dead and won away, as I daresay you have heard—oh, yes, we must all go—so, ye see, I'm scarcely abreast o' the latest intelligence. What's Wilson doing here? I thought he had been a pawnbroker in Embro."

"Noat he! It's whispered indeed, that he left Brigabee to go and help in a pawnbroker's, but it seems he married an Aberdeen lass and sattled there after awhile, the manager of a store, I have been given to understand. He has taken oald Rab Jamieson's barn at the bottom of the Cross—for what purpose it beats even me to tell! And that's his furniture——"

"I declare!" said the astonished Brodie. "He's smart-looking boy that. Will that be a son of his?"

He pointed to a sharp-faced urchin of twelve who was busy carrying chairs round the corner of the barn, to the tiny house where Wilson meant to live. He was a red-haired boy with an upturned nose, dressed in shirt and knickerbockers only. The cross of his braces came comically near his neck—so short was the space of shirt between the top line of his breeches and his shoulders. His knickers were open at the knee, and the black stockings below them were wrinkled slackly down his thin legs, being tied loosely above the calf with dirty white strips of cloth instead of garters. He had no cap, and it was seen that his hair had a "cow-dick" in front; it slanted up from his brow, that is, in a sleek kind of tuft. There was a violent squint in one of his sharp grey eyes, so that it seemed to flash at the world across the bridge to his nose. He was so eager at his work that his clumsy-looking boots—they only looked clumsy because the legs they were stuck to were so thin—skiddled on the cobbles as he whipped round the barn with a chair inverted on his poll. When he came back for another chair, he sometimes wheepled a tune of his own making, in shrill disconnected jerks, and sometimes wiped his nose on his sleeve. And the bodies watched him.

"Faith, he's keen," said the Provost.

"And what on earth has Wilson ta'en auld Jamieson's house and barn for? They have stude empty since I knna whan," quoth Alexander Toddle, forgetting his English in surprise.

"They say he means to start a business! He's made some bawbees in Aiberdeen, they're telling me, and he thinks he'll set Barbie in a lowe wi't."

"Ou, he means to work a perfect revolution," said Johnny Coe.

"In Barbie!" cred astounded Toddle.

"In Barbie e'en't," said the Provost.

"It would take a heap to revolutionize hit," said the baker, the ironic man.

"There's a chance in that hoose," Brodie burst out, ignoring the baker's jibe. "Dod, there's a chance, sirs. I wonder it never occurred to me before."

"Are ye thinking ye have missed a gude thing?" grinned the Deacon.

But Brodie's lips were working in the throes of commercial speculation, and he stared, heedless of the jibe. So Johnny Coe took up his sapient parable.

"Atweel," said he, "there's a chance, Mr. Brodie. That road round to the back's a handy thing. You could take a horse and cart brawly through an opening like that. And there's a gey bit ground at the back, too, when a body comes to think o't."

"What line's he meaning to purshoo?" queried Brodie, whose mind, quickened by the chance he saw at No. 1, The Cross, was hot on the hunt of its possibilities.

"He's been very close about that," said the Provost. "I asked Johnny Gibson—it was him had the selling o't—but he couldn't give me ainy satisfaction. All he could say was that Wilson had bought it and paid it. 'But, losh!' said I, 'he maun 'a' lat peep what he wanted the place for!' But na; it seems he was owre auld-farrant for the like of that. 'We'll let the folk wonder for a while, Mr. Gibson,' he had said. 'The less we tell them, the keener they'll be to ken; and they'll advertise me for noathing by spiering one another what I'm up till.'"

"Cunning!" said Brodie, breathing the word low in expressive admiration.

"Demned cute!" said Sandy Toddle.

"Very thmart!" said the Deacon.

"But the place has been falling down since ever I have mind o't," said Sandy Toddle. "He's a very clever man if he makes anything out of that."

WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love.

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. T. E. Gillis

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. T. E. Gillis, Windsor, N. S., describes her illness, and cures, in the following letter:

Dear Mrs. Pinkham:—

"When I commenced to take Lydia E. Pinkham's Vegetable Compound I was suffering with weakness and womb trouble, headaches, backaches, and that worn-out, tired feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for female troubles."

Women who are troubled with painful or irregular periods, backache, bloating, (or flatulence), inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

THE HINDUS.

To the Editor:—I was rather surprised after reading Mr. R. Marvin's opinion of me in your Wednesday's paper. He seems to have an intense dislike of the Hindus, and I am sorry to say that there is a great many of this creed in the city of Victoria.

When Mr. Marvin asserts that I am championing the Hindus, he is making a grave mistake. I say that the Hindus are very desirable immigrants, not because, as Mr. Marvin says, "Of their idleness, slovenliness, and diseases," but because of their willingness to come to this country, their fitness for "some" kinds of labor, the small wages which they are contented with, and last, but not least, the manner in which they fought and saved India for the crown during the Sepoy mutiny, when Britain's best could not do it. I will now take the interrogations in order.

In regard to question one, about "The willing worker from India," I say that when people are characterized as lazy, does not prove that they are lazy. If the Hindus who are here are not working, it is because some foolish people will not give them employment. When a man wants work, and will work but can't get work, does that prove that he is of an idle nature? As to No. 2, it is something of an embarrassing interrogation. If Mr. Marvin refers to Japs, Chinamen and Hindus who are newcomers, I would prefer the Hindus, for the Japs and Chinamen, being preceded by a great many, are well informed on the wages which are obtainable, while the Hindu, who receives 10 cents per day in India, would be pacified with 75 cents a day here. Again, many of these Hindus were farmers in India, while the Japs and Chinamen are entirely ignorant of this class of labor, or any other. Of course, that is newcomers. Also, was there such a hue and cry raised when these Celestials came, as the Hindus? No. Why? Simply because they saved India for the crown, when Britain's best could not do it. When some of the red was almost taken off of John Bull's map, the help of the Hindus was accepted. When these people want work we show our gratitude by offering to deport them by the next outgoing Empress. "A new way of paying old debts."

I see that No. 3 is about the housework question. Now, I am not well informed as to the relative merits and demerits of these Celestials, but I am sure that whoever has employed the Chinaman to do the housework have very seldom if ever had occasion to complain. I do not deny that the English working woman is superior to any other, but I contend that there is not such a scarcity in this branch of work as there is in male labor.

At the end of his letter Mr. Marvin says that these Hindus are a menace to the lives of the people of this country. Has anyvody died because of the coming of the Hindus? In conclusion, I say that if these stalwart sons of India do not get work here, the people who raised this cry against them are either entirely devoid of that which Providence has given us all—sense—or there is no labor scarcity in the fair province of British Columbia. And now, Mr. Editor, I think I have answered Mr. Marvin's queries to the satisfaction of himself, the public, and myself.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is *increased vitality*—vigour—

VITAL STRENGTH & ENERGY

to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the celebrated life-reviving tonic

THERAPION No. 3

than by any other known combination. So surely as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored.

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH,

and a new existence imparted in place of what had so lately seemed worn-out, "used up," and valueless. This wonderful restorative is purely vegetable and innocuous, is agreeable to the taste—suitable for all constitutions and conditions, in either sex; and it is difficult to imagine a case of disease or derangement, whose main features are those of debility, that will not be speedily and permanently benefited by this never-failing recuperative essence, which is destined to cast into oblivion everything that had preceded it for this wide-spread and numerous class of human ailments.

THERAPION is sold by the principal Chemists throughout the world. Price in England, 2/9 and 4/6. Purchasers should see that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

LAND REGISTRY ACT.

In the Matter of an Application for a Duplicate of the Certificate of Title to Sub-Division Lot 19, of Sub-Section XXIX., Beckley Farm, Victoria City.

Notice is hereby given that it is my intention, at the expiration of one month from the first publication hereof, to issue a Duplicate of the Certificate of Title to said land, issued to Frank Albany on the 16th day of January, 1878, and numbered 2149a.

S. Y. WOOTTON,
Registrar-General.

Land Registry Office,
Victoria, B. C., this 1st October, 1906.

Notice is hereby given that sixty days after date, I intend to apply to the Honorable Chief Commissioner of Lands and Works for a lease of the following described foreshore and tidal lands and territorial water rights for fishing purposes, viz.: Commencing at a post planted at high water mark on the shore of Parry Bay, opposite Section five (5), Metchosin District, thence running north one-half a mile and extending east to deep water.

F. W. ADAMS,
Agent for H. H. Thompson.

Victoria, B. C., July 4th, 1906.

A BUSINESS PROPOSITION given publicity in Times want ads is sure of consideration. They go into a man's private office, his home, go into his cab or the street cars with him, and compel his attention.

IF YOU NEED HELP ... IN A HURRY ...

Telephone the Times, and your advertisement will be inserted at once and the bill sent you, and the chances are ten to one that you will get the very thing or person you need. It makes no difference whether you want a clerk or a hostler, a stenographer or a cook. They all look to the Times to tell them of the best opportunities in town.

MAKE YOUR WANTS ...KNOWN IN THE TIMES...

NOTICE.

REVISED STATUTES OF CANADA, 1886, CHAPTER 52, AND STATUTES CANADA, 1889, CHAPTER 13.

PROPOSED CONSTRUCTION OF WHARF IN WEST BAY, IN THE COUNTY OF VICTORIA.

Notice is hereby given that, under and pursuant to the Revised Statutes of Canada, 1886, and Chapter 13 of the Statutes of Canada, 1889, the undersigned, by petition dated this day, has applied to the Governor-in-Council for approval of the area, plan and site of the following proposed works, to occupy the foreshore and submerged grounds adjoining or abutting on Lots 15 and 14, Block 5, Sub-division part of Viewfield Farm, County of Victoria, namely: A pile wharf, 230 feet in length by 40 feet in width, connected with the shore by a floating approach 260 feet in length by 4 feet in width. A plan of the said proposed work and a description by metes and bounds of the foreshore and submerged ground to be occupied thereby has been deposited with the Minister of Public Works, and duplicates thereof have been deposited in the Land Registry Office, Victoria, B. C.

Dated at Victoria, B. C., this 25th day of September, 1906.

VICTOR JACKOBSON.

Notice is hereby given that, 30 days after date, we intend to apply to the Hon. the Chief Commissioner of Lands and Works for a special timber license to cut and carry away timber from the following described lands, situate in Clayoquot District, Vancouver Island, British Columbia, as follows: Commencing at a post planted at the N. W. corner of claim No. 12, on Toquot Harbor, thence N. 80 chains, thence E. 80 chains, thence S. 80 chains, thence W. to point of commencement, containing 640 acres more or less.

Located 11th Sept., 1906.

H. J. HILLIER,
W. L. THOMPSON,
Locators.

A BUSINESS CAN GO WITHOUT ADVERTISING—So can a wagon without greasing; but in both instances it goes hard.

$2,200—Will buy full size corner lot and 2 dwellings in James Bay; this price is low as we wish to close an estate.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-Agent.

An application for entry or inspection made personally at any Sub-Agent's office may be wired to the local Agent by the Sub-Agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favor of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in their particulars if the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

COAL.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

QUARTZ.—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 per acre.

The patent provides for the payment of a royalty of 2½ per cent. on the sales.

Placer mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent. collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

IF YOU HAVE anything for sale and are averse to having the public know of it the public is not apt to become inquisitive. Make your wants known through the Times want columns.

ANOTHER REPORT COMES FROM PEARY

STEAMER ROOSEVELT IS BEING REPAIRED

Return Voyage Was Incessant Struggle With Ice—Explorer Says Progress Will Be Slow.

Lennox, Mass., Nov. 3.—Mr. Morris K. Jessup, president of the Peary Arctic Club, to-day received the following telegram from Commander Peary:

"Steamer Roosevelt, now at Hopedale, repairing rudder and stern, taking ballast and awaiting arrival mail steamer to secure coal. Return voyage incessant struggle with ice to Cape York, September 26th. Then storms and head winds to Labrador coast, October 23rd. Carried away two rudders, sternpost and spanker-boom. Lost one boat. Burned all coal and some interior beams, using wood and blubber along coast. Expect to communicate again from Chateau Bay. All progress will be slow. Have no anxiety for our safety and give no credence to exaggerated reports. Roosevelt is returning this year for additional supplies and for repairs. Several tons of whale meat and dog food thrown away last fall after poisoning number of my dogs. Other supplies lost by breaking of ice in April. (Signed) Peary."

Awaiting Coal.

New York, Nov. 3.—Mrs. Robt. E. Peary, wife of the explorer, received the following message from Commander Peary, dated at Hopedale, Labrador:

"Homeward voyage incessant battle with ice, storms and head winds. Propeller damaged and progress very slow. Waiting here for coal from mail steamer. Have no anxiety. Expect to wire from Chateau Bay. Am perfectly well."

Mr. Bridgman said that Comamnder Peary's mention of Chateau Bay might indicate that he expected to touch there on the way to Sydney. Mr. Bridgman believed that Peary obtained coal from the mail steamer which carried his message to Twilligate, Newfoundland.

The folowing message of congratulations for Commander Peary was received to-day by Herbert L. Bridgman, secretary of the Peary Arctic Club:

"Peary, care of Bridgman, New York. Very hearty congratulations upon your splendid achievement. (Signed) Wm. S. Bruce, Edinburgh."

Mr. Bruce was the leader of the Scottish Aantaretic expedition and spent years exploring the Antarctic regions with the Scotia.

Commander Peary's Polar steamship, the Roosevelt, left New York on her long journey in search of the Pole on July 16th, 1905. The vessel, for which funds were furnished by the Peary Arctic Club of New York, was designed particularly for Arctic exploration. She cost about $100,000. The Roosevelt had a crew of 20 men and Captain Bartlett.

The Roosevelt left Sydney, C. B., where she was joined by Commander Peary, on July 26th. She was next reported at Dominion Run, Labrador, on July 29th, from which point she crossed to Greenland. The vessel next was heard from at Etah, Greenland. She passed Cape York on August 7th, and reached Etah on August 16th. The expedition's auxiliary steamer Erik, in the meantime, had visited various settlements in Greenland, and secured natives and dogs for the exploration, and turned them over to the Roosevelt on August 13th.

At Etah the Roosevelt overhauled her machinery, took on board her last supply of coal from the Erik, and thence proceeded north with Esquimaux to the number of 23 on board, and about 200 dogs.

When nothing had been heard of the Roosevelt by last July, friends of the Arctic explorer who had expected a message of some kind in May or June, began to be worried at the long delay. This anxiety, however, was not shared by the members of the club, who said they did not expect to hear from Peary until October or November. It was then explained that his only way of getting news down from the north was by whaling ships.

Peary planned to have his headquarters 350 miles north of Cape Sabine. From that point he hoped to make his actual journey to the Pole, a distance of 500 miles across a desert of ice and snow. This final dash he expected to make in a month or six weeks from the time he left headquarters.

The previous record for the point nearest the Pole was made by Captain Cagni, of the Duke of Abruzzi's Italian expedition, which reached 86.34 north, or within 237 statute miles of the Pole. The point reached by ePary, 87.6, places him about 203 miles from the Pole.

DR. TOLMIE'S TRIP.

Inspector of Live Stock Completes a Month's Tour of the Interior.

Dr. S. F. Tolmie, provincial government inspector of live stock, returned to the city last week after a month's tour of the interior districts of British Columbia. During his trip he acted as judge at the Armstrong and New Westminster exhibitions, organized a class at Vernon for the purpose of instructing ranchers in horse and cattle raising, and then proceeded through Grand Prairie and the Lower Nicola and Kootenay districts, concluding his work with a tour of the Chilliwack district. He acted as judge in a live stock exhibition at Grand Prairie and afterwards, while passing through the Nicola and Kootenay districts, he organized classes for the study of live stock. J. B. McKilligan, of the seed department, Ottawa, accompanied him on this trip and delivered many interesting and instructive lectures upon agricultural and horticultural topics. F. M. Logan accompanied the inspector on the latter part of his trip and assisted in the organizing of classes in the Chilliwack district.

The doctor says that this year is the first one in which an organized attempt has been made to disseminate scientific knowledge of live stock and agricultural matters, among the people of the interior. He was glad to say that the movement had everywhere received an enthusiastic support, and that none of the classes organized had failed on account of a lack of pupils. Dr. Tolmie, in speaking of the general aspect of the country he traversed, said that everywhere he noticed a general air of prosperity and progress.

The doctor left on Saturday evening on a trip through the boundary country. He will be absent ten days.

VERY PREVALENT IN YOUNG WOMEN

A CONDITION OF "WHITE-BLOODEDNESS" IS FAST INCREASING.

It is always associated with langour and sensitiveness to cold. All the mucous surfaces, such as the gums, lips and eyelids, are blanched and waxey looking, the skin is pallid and colorless.

The pulse becomes rapid and feeble; there is also loss of appetite and enfeebled digestion, palpitation of the heart, breathlessness and tendency to faint. In extreme cases there is complete disappearance of the menstrual flow and dropsical swelling of the limbs.

Physicians know of no remedy so prompt in results as Ferrozone, which contains all the elements lacking in debilitated blood.

Ferrozone not only improves the present quality of the blood, but actually forms more blood—the rich, red kind that nourishes and feeds the organs that require assistance.

"About a year ago," writes Mrs. S. G. Stanhope, of Rothesay, "my daughter compained of feeling tired. She was very pale and listless, and kept losing strength until too weak to attend school.

"We read of a similar case, that of Miss Deacent, Stirling, Ont., being cured by Ferrozone, and this induced us to get it for Elaine. It took three boxes of Ferrozone to make any decided improvement, but when six boxes were used my daughter was begining to be her old self again. It didn't take much longer to make a complete cure. It has made a new girl of Elaine. She has gained ten pounds in weight and looks the picture of perfect health. She is stronger and enjoys the best of spirits."

Every growing girl and young woman can make herself strong and healthy with Ferrozone. Price 50c. per box, or six for $2.50, at all dealers.

—Boys' heavy Scotch wool hose, 40c. pair, and ladies' Llamas at 50c., are 10c. to 15c. a pair each in your pocket. Robinson's cash store, 85 Yates street.*

The British war medal having most clasps is the Peninsular. The full number is twenty-eight.

IMPRESSIVE FUNERAL.

Remains of Miss Catherine Charlotte Finlaison Laid at Rest Saturday.

One of the most impressive funerals ever witnessed in Victoria took place Saturday afternoon when the remains of Miss Catherine Charlotte Finlaison were laid at rest in Ross Bay cemetery. The cortege left the residence, 81 Kingston street, at 2.30, and proceeded to St. James' church, where Rev. J. S. Sweet conducted a most impressive service, the choir rendering: "On the Resurrection Morning," "Peace, Perfect Peace," and "Lord, Now Lettest Thou Thy Servant Depart in Peace."

The hearse was followed by many friends and sympathizers, Miss M. Green, Miss L. Dodd, Miss N. Locke, Miss A. McLean, Miss A. Tingle, Miss M. Mellon, Miss D. Cooper, Miss O. Feckenham, Miss M. Madigan and Miss I. Saunders, all members of the St. Joseph's hospital nursing staff, walked behind the hearse and acted as honorary pall-bearers. They wore the regulation uniform of the hospital nurses. A profusion of the choicest floral offerings covered the casket, notable among which was a striking design contributed by the staff of St. Joseph's hospital, bearing the inscription "The Gates Ajar."

The pall-bearers were as follows: D. F. McConvan, D. O. Sullivan, H. B. Young, A. R. Wolfenden, W. A. Lawson and R. W. Clark.

As the funeral procession was passing near the hospital the nurses whose duties prevented them from attending assembled in the porch and watched the hearse progress along Humbolt street to the burial ground.

NEW MARINE SPECIMENS.

Inspector Taylor Has Found Some Which He Will Send to Ottawa.

Fisheries Inspector Taylor, has returned to Nanaimo from a cruise up the Straits in the Dominion fisheries steamer Georgia and reports having had an interesting trip. While up north several new specimens of marine life were discovered and Mr. Taylor has forwarded them to Prof. Prince at Ottawa for the purpose of determining to what species they belong, or whether they are something that is new to the marine world.

Mr. Taylor also states that herring have arrived in Nanaimo harbor. The first signs of their arrival were the large flock of gulls that were seen hovering over the harbor, which upon investigation were found to be accompanying the herring shoals.
